The A.S.P.E.N. Rhoads Research Foundation awards grants during Clinical Nutrition Week in 2015. Grant recipients are honored with a presentation ceremony during the Rhoads Research Lecture and Awards Session. Depending on the cycle of each grant, the following named grants may be available:

- Nestlé Nutrition Institute Maurice Shils grant: up to $25,000, renewable for a second year of funding, assuming satisfactory progress. Endowed and funded by Nestlé Nutrition.

- Baxter Grant for Parenteral Nutrition Research: up to $25,000, renewable for a second year of funding, assuming satisfactory progress. Endowed and funded by Baxter. Project should be related to Parenteral Nutrition.

- Abbott Nutrition Research Grant: up to $25,000, renewable for a second year of funding, assuming satisfactory progress. Endowed by Abbott Nutrition.

- Norman Yoshimura Grant: up to $16,600. Generally non-renewable. Funded by B. Braun Medical, Inc. Project should be related to Parenteral Nutrition / amino acids.

- C. Richard Fleming Grant and small research project grant: up to $5,000 each. Funded by the generous donations of A.S.P.E.N. members. Single year grant.
