

Dear Patient,

My company is Medical Czar. I work with CU Sports Medicine and your doctor providing Cold Therapy to patients. CU Sports Medicine is recommending the use of cold therapy in conjunction with your upcoming surgery. Cold Therapy is a continuous flow of cold water through a pad which surrounds your affected body part. It has been proven to reduce pain and swelling, minimize discomfort and ultimately maximize and quicken your recovery from surgery.

This letter is to inform you that most insurance companies do not cover the use of Cold Therapy. This includes Medicare, Medicaid, Anthem, Aetna, Blue Cross, Blue Shield, Humana, Tri Care, MAMSI, Optimum Choice, and MDIPA . If you are member of one of these insurance providers, your insurance will not be billed and you will be responsible for the sale price or rental price depending on your decision. We feel it is important to make you aware of this in advance.

Sale Price: \$150.00

Rental Price: \$75 for two weeks

If you experience any problems with the unit, please contact Matt Stottle at 916-300-9123 so that I may resolve any issues or deliver a replacement unit to you within 24 hours.

My company has a no surprise guarantee! I will make every effort to educate you regarding the benefits of cold therapy and associated costs. Please contact me as soon as possible to discuss your upcoming surgery and to decide if cold therapy is right for you. I have also included a brochure on the cold therapy unit that I will be providing you. I look forward to speaking with you soon.

Sincerely,

Matt Stottle

Medical Czar
