Self-Study Progress

Each of the self-study committees has been developing an early initial draft addressing salient points of each accreditation standard under their responsibility. This process has provided the opportunity for faculty members, students, staff and outside stakeholders to analyze data, highlight accomplishments of the school and provide input regarding the status of our school in meeting or exceeding each standard. On the first day of the January 2015 retreat, our faculty reviewed each initial draft, evaluated the most recent AACP survey and school data and created a draft narrative. As you can see, it was all work. The draft narratives are currently being edited and developed for further review.

On the second day of the retreat, the faculty gave final approval of the school's revised mission, vision, values and goals. This is the culmination of input and development involving our faculty, student leadership, alumni, preceptors and pharmacy leaders. These new statements can be found on the school's website at: http://www.ucdenver.edu/pharmacy/abouttheschool

Strategic Plan

Our school began development of its 2015-2020 strategic plan at the January 2014 retreat and finalized it at the 2015 retreat. In the interim, draft versions of the plan were reviewed by student representatives, external stakeholders and the faculty. This is consistent with ACPE Standard 2 that requires that a school develop, implement, and regularly revise a strategic plan to facilitate the advancement of its mission and goals and that the plan’s development include school stakeholders. The plan will be reviewed each year, with initiatives modified as they are achieved and new initiatives added based on input. In this process, measurable key performance indicators for each initiative will be used to monitor their achievement. The school has recruited a Director of Assessment who will oversee this process. Progress on strategic plan initiatives will be made available annually to our stakeholders. The strategic plan is available on the school’s website at: http://www.ucdenver.edu/pharmacy/strategicplan
