Student Spotlight — the next generation of pharmacists
With the help of pharmacy students and faculty from the SOP, third graders from Oakland Elementary became pharmacists for a day. From "compounding" to learning the differences between medicine and candy, the children were schooled in what it takes to become a pharmacist. Read the entire story or view photos by Isabella Muturi Sauve.

It’s a Match!
The excitement was palpable when approximately twenty P4 students were matched with PGY-1 residency programs. “With 2,508 students applying for only 1,873 positions throughout the country, the process is quite competitive,” says 2009 Class President, Lam Nguyen. Congratulations to all the P4 students who recently received residency matches.

Commencement
Cap and gown rental is now available online for the May 21st commencement ceremony. Don’t delay, order today.

In the News
The SOP was recently highlighted in several media outlets including a photo in the Denver Post of pharmacy students training third graders to be pharmacists. In addition to the Denver Post, the Villager newspaper, and the print and electronic versions of www.yourhub.com published a story on P2 student, Lauren Johnson.

Alumni Corner - Where are they now?
A casualty of an economic downturn in the ’90s, Stephen Cook, BS ’97, pursued and received his degree after a layoff. Grateful for the turn of events, he says, “I think about how I could be working as an accountant and feeling miserable about it.” The recipient of scholarship monies during his years at the SOP, Cook pays it forward by donating to the school. Today, Cook is a pharmacist at Cedars-Sinai Hospital in LA. Look for more information on him in the upcoming Pharmacy Perspectives newsletter.

NTPD Announces New Challenge Reviewers
NTPD welcomes 4 Kaiser Permanente pharmacists as reviewers for the credit by challenge process. The process allows students in the non traditional program to submit work experience for credit. The reviewers evaluate the challenge, and determine if the work experience supports the Educational Case Outcomes for a specific rotation. The new reviewers are:

- Stephanie Campbell, PharmD, BCPS – Ambulatory Care
- Lynn Flach, PharmD, BCPS – Ambulatory Care
- Rebekah Hansmeier, PharmD, BCPS – Ambulatory Care
- Samuel Johnson, PharmD, BCPS (AQ-Cardiology), CACP – Cardiology & Anticoagulation
