| Faculty. Prerequisites: none.  
This course provides students with the tactics necessary to perform dispensing duties in most US pharmacy settings and systems. The fundamentals of the practice of drug information are introduced.  
Eligible Students: ITPD students |
| PRDI 7100   | Pt Centered Clin Comm                           | 2.5 cr. |
| Faculty. Prerequisites: none.  
This course is designed to help students develop skills to communicate effectively with patients, caregivers and healthcare providers to facilitate the achievement of optimal patient outcomes.  
Eligible Students: ITPD students |
| PRDI 7150   | Med Term & Lab Interp                          | .5 cr.  |
| Faculty. Prerequisites: none.  
This course provides a review of medical terminology and laboratory interpretation with an emphasis on US pharmacy and medical terms and abbreviations. Students will also review the top 100 medications prescribed in the United States.  
Eligible Students: ITPD students |
| PRDI 7300   | Intro Phcy Pract Exp I                          | 2.5 cr. |
| Faculty. Prerequisites: none.  
Course designed to provide students with opportunities to practice skills and knowledge acquired from courses and apply them in various practice settings and with various professional groups.  
Eligible Students: ITPD students |
| PRDI 7470   | US Phcy Leadership Mgmt                        | 2.0 cr. |
| Faculty. Prerequisites: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150.  
Course provides students with an overview of fundamental principles of leadership. Attributes of effective leaders will be identified and discussed. An emphasis will be placed on identifying and cultivating personal leadership qualities to use throughout their pharmacy education and career.  
Eligible Students: ITPD students |
| PRDI 7480   | US Phcy Law & Reg Stds                         | 1.5 cr. |
| Faculty. Prerequisites: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150.  
Legal and ethical issues in US pharmacy practice are presented in this course in lectures, case studies and discussion group formats.  
Eligible Students: ITPD students |
| PRDI 7770   | US Pt Centered Self-Care                       | 2.5 cr. |
| Faculty. Prerequisites: PRDI 7000, PRDI 7100, PRDI 7300, PRDI 7150, and PRDO 7700  
This course will prepare the student to be able to 1) collect appropriate patient data to make an assessment for self-care (e.g. nonprescription products), 2) conduct a patient-centered assessment, and 3) design, implement, evaluate and adjust a patient-centered self-care plan.  
Eligible Students: ITPD students |
| PRDI 7900   | Prof Skills Dev                                | 1.0 cr. |
| Faculty. Prerequisites: PRDI 7000, PRDI 7100, PRDI 7300, PRDI 7150, PRDO 7800, and All Pharmacotherapy (except Oncology, ID, electives)  
Course intended to review and assess a broad range of skills necessary for current and future pharmacy practice. Designed to integrate and apply essential knowledge, skills and attitudes from didactic portion of curriculum are required for a successful professional career.  
Eligible Students: ITPD students |
| PRDI 7911   | Prof Skills Portfolio I                        | 1.0 cr. |
| Faculty. Prerequisites: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150.  
First of two courses dedicated to the longitudinal Professional Skills Development portfolio. The goal of this course is to address students' individual and home country/community educational and practice needs, assess pharmacy educational competencies and document skill application.  
Eligible Students: ITPD students |
PRDI 7912 Prof Skills Portfolio II 
Faculty. Prerequisites: PRDI 7000, PRDI 7100, PRDI 7300, PRDI 7150, and PRDI 7911.
Second of two courses dedicated to the longitudinal Professional Skills Development portfolio. The goal of this course is to address students’ individual and home country/community educational and practice needs, assess pharmacy educational competencies and document skill application.
Eligible Students: ITPD students

PRDO 7920 Adv Intro Phcy Prac Exp
Faculty. Prerequisites: PRDI 7000, PRDI 7100, PRDI 7150, PRDI 7300, PRDO 7800, PRDI 7470, PRDI 7470, PRDI 7480, PRDI 7770 and all Pharmacotherapy (except Oncology, ID, electives).
Course designed to provide students with introductory exposure to higher level patient care experiences, engagement in clinical pharmacy practice in a clinical setting, immersion in a clinical environment, and experiences to increase student confidence in their ability to learn.
Eligible Students: ITPD students

PRDO 7010 Immunology
Faculty.
This course is recommended prior to PRDO 7331, PRDO 7332, and PRDO 7341 but is not a prerequisite. Course includes basic concepts of immunology, immunopathology, immunopharmacology and immunotherapy.
Eligible Students: NTPD Continuing students (those admitted prior to Fall semester 2014)

PRDO 7011 Immunology I
Faculty. Prerequisites: ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150.
This course will teach the basic concepts of immunology, immunopathology, immunopharmacology and immunotherapy.
Eligible Students: - NTPD New students (those admitted fall semester 2014 and later) and - ITPD students

PRDO 7015 Immunology II
Faculty. Prerequisites: All students: PRDO 7011. ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150.
This elective course will build on the concepts of immunology, immunopathology, immunopharmacology and immunotherapy learned in its prerequisite PRDO 7011 Immunology-I. It will cover more advanced topics and their application in the pharmacy arena.
Eligible Students: - Elective for NTPD New students (those admitted fall semester 2014 and later) and - Elective for ITPD students

PRDO 7321 ADSM 2-1 Gl Dis
Faculty. Prerequisites: PRDO 7700
Course combines pathophysiology, advanced pharmacotherapeutics management, patient assessment, & professional skills development for patients with common gastrointestinal disorders. Course may include case-based, team-based learning to provide opportunities for the application of clinical skills & knowledge in providing patient care.
Eligible Students: NTPD Continuing students (those admitted prior to Fall semester 2014)

PRDO 7322 ADSM 2-2 Nutrition
Faculty. Prerequisite: PRDO 7700
Course combines pathophysiology, advanced pharmacotherapeutics management, patient assessment, & professional skills development for patients with nutritional needs. Course may include case-based, team-based learning to provide opportunities for the application of clinical skills & knowledge in providing patient care.
Eligible Students: NTPD Continuing students (those admitted prior to Fall semester 2014)

PRDO 7323 ADSM 2-3 Critical Care
Faculty. Prerequisite: PRDO 7700
Course combines pathophysiology, advanced pharmacotherapeutics management, patient assessment, & professional skills development for critical care patients. Course may include case-based, team-based learning to provide opportunities for the application of clinical skills & knowledge in providing patient care.
Eligible Students: NTPD Continuing students (those admitted prior to Fall semester 2014), - Elective for NTPD New students (those admitted fall semester 2014 and later), and - Elective for ITPD students

PRDO 7331 ADSM 3-1 Pediatrics
Faculty. Prerequisite: PRDO 7700
Second of two courses dedicated to the longitudinal Professional Skills Development portfolio. The goal of this course is to address students’ individual and home country/community educational and practice needs, assess pharmacy educational competencies and document skill application.
Eligible Students: NTPD Continuing students (those admitted prior to Fall semester 2014), - Elective for NTPD New students (those admitted fall semester 2014 and later), and - Elective for ITPD students

PRDO 7332 ADSM 3-2 Infectious Dis
Faculty. Prerequisites: PRDO 7700; Recommended PRDO 7010 Immunology
Course combines pathophysiology, advanced pharmacotherapeutics management, patient assessment, & professional skills development for patients with infectious diseases. Course may include case-based, team-based learning to provide opportunities for the application of clinical skills & knowledge in providing patient care.
Eligible Students: - NTPD Continuing students (those admitted prior to Fall semester 2014), NTPD New students (those admitted fall semester 2014 and later), and - Elective for ITPD students.
PRDO 7342 ADSM 4-2 Bone & Con Tis  1.0 cr.
Faculty. Prerequisite: PRDO 7700
Course combines pathophysiology, advanced pharmacotherapeutics management, patient assessment, & professional skills development for patients with bone and connective tissue disorders. Course may include case-based, team-based learning to provide opportunities for the application of clinical skills & knowledge in patient care. Eligible Students: NTPD Continuing students (those admitted prior to Fall semester 2014)

PRDO 7351 ADSM 5-1 Geriatrics  1.0 cr.
Faculty. Prerequisite: PRDO 7700
Course combines pathophysiology, advanced pharmacotherapeutics management, patient assessment, & professional skills development for disorders commonly seen in geriatric patients. Course may include case-based, team-based learning to provide opportunities for the application of clinical skills & knowledge in providing patient care. Eligible Students: NTPD Continuing students (those admitted prior to Fall semester 2014)

PRDO 7352 ADSM 5-2 Neuro & Psych  3.0 cr.
Faculty. Prerequisite: PRDO 7700
Course combines pathophysiology, advanced pharmacotherapeutics management, patient assessment, & professional skills development for patients with neurologic and psychiatric disorders. Course may include case-based, team-based learning to provide opportunities for the application of clinical skills & knowledge in providing patient care. Eligible Students: NTPD Continuing students (those admitted prior to Fall semester 2014)

PRDO 7361 ADSM 6-1 Endocrine Dis  1.0 cr.
Faculty. Prerequisite: PRDO 7700
Course combines pathophysiology, advanced pharmacotherapeutics management, patient assessment, & professional skills development for patients with endocrinology disorders. Course may include case-based, team-based learning to provide opportunities for the application of clinical skills & knowledge in providing patient care. Eligible Students: NTPD Continuing students (those admitted prior to Fall semester 2014)

PRDO 7362 ADSM 6-2 Hematology Dis  1.0 cr.
Faculty. Prerequisite: PRDO 7700
Course combines pathophysiology, advanced pharmacotherapeutics management, patient assessment, & professional skills development for patients with hematologic disorders. Course may include case-based, team-based learning to provide opportunities for the application of clinical skills & knowledge in providing patient care. Eligible Students: NTPD Continuing students (those admitted prior to Fall semester 2014)

PRDO 7364 ADSM 6-4 Gynecology  1.0 cr.
Faculty. Prerequisite: PRDO 7700
Course combines pathophysiology, advanced pharmacotherapeutics management, patient assessment, & professional skills development for gynecologic topics. Course may include case-based, team-based learning to provide opportunities for the application of clinical skills & knowledge in providing patient care. Eligible Students: NTPD Continuing students (those admitted prior to Fall semester 2014)

PRDO 7400 Drug Information Fund  1.0 cr.
Faculty. Prerequisites: ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150.
Course combines pathophysiology, advanced pharmacotherapeutics management, patient assessment, & professional skills development for disorders commonly seen in gynecologic patients. Course may include case-based, team-based learning to provide opportunities for the application of clinical skills & knowledge in providing patient care. Eligible Students: NTPD Continuing students (those admitted prior to Fall semester 2014)

PRDO 7401 Drug Info Portfolio I  .5 cr.
Faculty. Prerequisites: All students: PRDO 7400 ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150.
This course provides an introduction and step-wise approach to evidence-based medicine. Knowledge gained from this course allows students to search for and understand published medical studies, research designs and statistical tests, and their application to clinical practice. Eligible Students: NTPD New students (those admitted fall semester 2014 and later) and - ITPD students

PRDO 7402 Drug Info Portfolio II  .5 cr.
Faculty. Prerequisites: All students: PRDO 7400, PRDO 7411 ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150.
Second of two courses dedicated to the longitudinal DI portfolio. This portfolio is for students to learn, build competence and gain experience in application of acquired knowledge in DI. Course highlights communication and professional interpersonal skills. Eligible Students: NTPD New students (those admitted fall semester 2014 and later) and - ITPD students

PRDO 7440 Evid-based Med & Lit Ev  3.0 cr.
Faculty. Prerequisites: New NTPD students: PRDO 7400 ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150 in addition to above courses. This course provides an introduction and step-wise approach to evidence-based medicine. Knowledge gained from this course allows students to search for and understand published medical studies, research designs and statistical tests, and their application to clinical practice. Eligible Students: NTPD New students (those admitted fall semester 2014 and later) and - ITPD students
PRDO 7490 Healthcare Informatics  1.0 cr.
Faculty. Prerequisites: ITPD students: PRDI 7000, PRDI 7100, PRDI 7150, PRDI 7300, PRDO 7800 and all Pharmacotherapy (except Oncology, ID, Electives). NTPD students: all Pharmacotherapy (except Oncology, ID, Electives).

Course will strengthen the skills necessary to allow practicing pharmacists to provide accurate, unbiased, and relevant drug information.

Eligible Students: NTPD Continuing students (those admitted prior to Fall semester 2014) - NTPD New students (those admitted fall semester 2014 and later) - ITPD students

PRDO 7561 Instructional Methods  1.5 cr.
Faculty. Prerequisites: NTPD (this course is for new students only): PRDO 7700, PRDO 7440 and 5 credit hours Pharmacotherapy; ITPD: PRDI 7000, PRDI 7100, PRDI 7300, PRDI 7150, PRDO 7700, PRDO 7440, and 5 credit hours Pharmacotherapy

This course is designed to advance the presentation and teaching skills of participants. It focuses on the development of essential components of formal presentations, including learning objectives, outlines, and delivery skills.

Eligible Students: NTPD New students (those admitted fall semester 2014 and later) - ITPD students

PRDO 7601 Public Health  1.0 cr.
Faculty. Prerequisites: ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150.

The purpose of this course is to provide an overview of the US healthcare system with insight into global health issues, their key components and their functional relationships.

Eligible Students: NTPD students admitted fall semester 2014 and later - ITPD students

PRDO 7602 Health Economics  1.0 cr.
Faculty. Prerequisites: ITPD students: PRDI 7000, PRDI 7100, PRDI 7150, and PRDI 7300.

This course will cover economic evaluation techniques for pharmaceutical care, and how to use economic, clinical and humanistic outcomes research to understand and assess health care interventions and health care systems.

Eligible Students: NTPD students admitted fall semester 2014 and later - ITPD students

PRDO 7621 Interprof Ed Devmt – I  .5 cr.
Faculty. Prerequisites: ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150.

Course allows students to develop competencies at the novice and advanced beginner levels in teamwork, collaboration, values, ethics, quality, and safety. It provides opportunities for application of competencies in interprofessional teams: and prepares learners for future success in PRDO 7622.

Eligible Students: NTPD New students (those admitted fall semester 2014 and later) - ITPD students

PRDO 7622 Interprof Ed Devmt – II  .5 cr.
Faculty. Prerequisites: For all students: PRDO 7621 ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150 in addition to above courses.

This course will continue in the development of skills learned in PRDO 7621 (a pre-requisite) allowing students to develop competencies at the novice and advanced beginner levels in teamwork and collaboration, values and ethics, and quality and safety.

Eligible Students: NTPD New students (those admitted fall semester 2014 and later) - ITPD students

PRDO 7700 Clin Skills Foundations  2.0 cr.
Faculty. Prerequisites: All students: This course serves as a prerequisite for ADSM and Pharmacotherapy courses. ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150 in addition to above courses.

Combines three components that provide foundation for ADSM courses: 1) orientation to patient assessment and skills development; 2) pharmacokinetics and pharmacodynamics; 3) advanced disease statement management for fluids, electrolytes, and acid-base disorders.

Eligible Students: NTPD Continuing students (those admitted prior to Fall semester 2014) - NTPD New students (those admitted fall semester 2014 and later) - ITPD students

PRDO 7710 Pharmacotherapy-CV/Renal  2.5 cr.
Faculty. Prerequisites: All students: PRDO 7700 ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150 in addition to above courses.

Course combines pathophysiology, advanced pharmacotherapeutics management, patient assessment, & professional skills development for patients with common cardiovascular and renal disorders. Course may include case-based, team-based learning to provide opportunities for application of clinical skills & knowledge in providing patient care.

Eligible Students: NTPD New students (those admitted fall semester 2014 and later) - ITPD students

PRDO 7720 Pharmacotherapy-GI/Nutr  2.5 cr.
Faculty. Prerequisites: All students: PRDO 7700 ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150 in addition to above courses.

Course combines pathophysiology, advanced pharmacotherapeutics management, drug-specific pharmacokinetics, patient assessment, & professional skills development for patients with gastrointestinal and nutrition disorders. Course may include case-based, team-based learning to provide opportunities for application of clinical skills & knowledge in patient care.

Eligible Students: NTPD New students (those admitted fall semester 2014 and later) - ITPD students
### PRDO 7730 Pharmacotherapy-Inf Dis

**Faculty**: Prerequisites: All students: PRDO 7700; ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150 in addition to above courses.

Course combines pathophysiology, advanced pharmacotherapeutics management, basic patient assessment, & professional skills development for patients with infectious diseases. Course may include case-based, team-based learning to provide opportunities for the application of clinical skills & knowledge in providing patient care.

- **Eligible Students**: NTPD New students (those admitted fall semester 2014 and later) and - ITPD students

### PRDO 7741 Pharmacotherapy-Oncology

**Faculty**: Prerequisites: All students: PRDO 7700; PRDO 7100 or PRDO 7011 strongly recommended ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150 in addition to above courses.

Course combines pathophysiology, advanced pharmacotherapeutics management, basic patient assessment, & professional skills development for oncology disorders. The course incorporates the principles of active learning using lecture and interactive formats.

- **Eligible Students**: NTPD New students (those admitted fall semester 2014 and later) and - ITPD students

### PRDO 7742 Pharmacotx -Bone Conn Tis

**Faculty**: Prerequisites: All students: PRDO 7700; ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150 in addition to above courses.

Course combines pathophysiology, advanced pharmacotherapeutics management, patient assessment, & professional skills development for patients with bone and connective tissue disorders. Course may include case-based, team-based learning to provide opportunities for the application of clinical skills & knowledge in patient care.

- **Eligible Students**: NTPD New students (those admitted fall semester 2014 and later) - ITPD students

### PRDO 7743 Oncology II

**Faculty**: Prerequisites: All students PRDO 7700; New NTPD: PRDO 7741, and NTPD Continuing students: PRDO 7340 or PRDO 7340 (Contact advisor for registration); For ITPD students: PRDI 7000, PRDI 7100, PRDI 7150 and PRDI 7300 in addition to above courses.

This elective course will build on foundational oncology concepts. The course will cover advanced pharmacotherapeutic management for disorders commonly seen in oncology patients.

- **Eligible Students**: Elective for NTPD New students (those admitted fall semester 2014 and later). - Elective for ITPD students, and - Open to NTPD continuing students as non-required extra elective credit

### PRDO 7750 Pharmacotx-Ger/Neur/Psy

**Faculty**: Prerequisites: All students: PRDO 7700; For ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150 in addition to above courses.

Course combines pathophysiology, advanced pharmacotherapeutics management, patient assessment, & professional skills development for geriatric, psychiatric, and neurological disorders. Course may include case-based, team-based learning to provide opportunities for application of clinical skills & knowledge in providing patient care.

- **Eligible Students**: NTPD New students (those admitted fall semester 2014 and later) - ITPD students

### PRDO 7760 PhtxEndoHemePulmUroGyn

**Faculty**: Prerequisites: All students: PRDO 7700; ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150 in addition to above courses.

Course combines pathophysiology, advanced pharmacotherapeutics management, patient assessment, & professional skills development for patients with endocrinology, hematology, pulmonology and gynecology/urologic disorders. Course may include case-based, team-based learning to provide opportunities for application of clinical skills & knowledge in patient care.

- **Eligible Students**: NTPD New students (those admitted fall semester 2014 and later) - ITPD students

### PRDO 7775 Integrative Health & Med

**Faculty**: Prerequisites: All students: PRDO 7700 ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150 in addition to above courses.

Elective course designed to develop a broad knowledge base in the field of Complementary and Alternative Medicine (CAM). Course will cover common vitamins and minerals, herbal products, and bio-identical hormones, touching on core CAM domains and discussions of regulatory issues.

- **Eligible Students**: Elective for NTPD New students (those admitted fall semester 2014 and later) and - Elective for ITPD students

### PRDO 7780 Pharmacogenomics

**Faculty**: Prerequisites: For NTPD students: PRDO 7700, PRDO 7400, PRDO 7440, PRDO 7710. For ITPD students: PRDI 7000, PRDI 7100, PRDI 7150, and PRDI 7300 in addition to above courses.

This course provides students with an understanding of how genetic factors influence drug disposition, response, and adverse effects. Knowledge gained from this course enhances students' ability to apply genetic information to pharmacy practice and select the most appropriate therapeutic intervention(s).

- **Eligible Students**: NTPD New students (those admitted fall semester 2014) and later and - ITPD students
**PRDO 7785 Geriatrics II**

- **1.0 cr.**
  - Faculty.
  - Prerequisites: All students: PRDO 7700; PRDO 7351 or 7750; ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150 in addition to above courses.
  - Elective course builds on foundational geriatrics concepts. Course covers advanced pharmacotherapeutic management for disorders commonly seen in geriatric patients. Course may include case-based, team-based learning to provide opportunities for the application of clinical skills & knowledge in providing patient care.
  - Eligible Students: Elective for NTPD New students (those admitted fall semester 2014 and later). Elective for ITPD students, and open to NTPD continuing students as non-required extra elective credit.

**PRDO 7800 Clin Reas Decn Making**

- **2.0 cr.**
  - Faculty. Prerequisites: For NTPD students: PRDO 7700, PRDO 7400, PRDO 7440, PRDO 7710, at least ONE of the following: PRDO 7720, PRDO 7750, or PRDO 7760. For ITPD students: PRDI 7000, PRDI 7100, PRDI 7150, and PRDI 7300 in addition to above courses.
  - Course is designed for students to become familiar with the clinical decision making process by incorporating various skills including basic principles of drug information, clinical knowledge, systems-based or governmental policies, and payer status applying these skills to patient-specific problems.
  - Eligible Students: NTPD New students (those admitted fall semester 2014 and later) and ITPD students.

**PRDO 7850 Clinical Capstone**

- **3.0 cr.**
  - Faculty. Prerequisites: PRDO 7700, PRDO 7800, PRDO 7710, PRDO 7720, PRDO 7742, PRDO 7750, and PRDO 7760. ITPD students: PRDI 7000, PRDI 7100, PRDI 7300, and PRDI 7150 in addition to above courses.
  - This course is designed to be a capstone that integrates essential core pharmacy practice topics. The philosophy of this course is to facilitate student learning and hold students accountable for prior learning in an integrated manner using complex patient scenarios.
  - Eligible Students: NTPD New students (those admitted fall semester 2014 and later) and ITPD students.
