</tbody>
</table>
MPAS 5801 Professional and Clinical Practice I  
D. Eckhardt, PA-C  
This core course is designed to introduce the student to issues related to professional practice and facilitate the development of various clinical skills through discussion and simulation, integrating didactic and clinical coursework.

MPAS 5881 Clinical Cornerstones I  
D. Eckhardt, PA-C  
This course reinforces key concepts of teamwork, leadership and communication when solving clinical scenarios. Clinical practice skills such as SOAPE notes, oral presentation and use of evidence-based clinical decision-making through simulation are incorporated.

MPAS 5901 Community Clinic I  
J. Sivahop, PA-C  
Clinical experience designed to give the student an introduction to ambulatory medicine and an understanding of pediatric and family practice medicine.

MPAS 5983 Global Track Elective I – 1st Year  
R. Maldonado, PA-C  
Registration is restricted to those students enrolled in authorized Track. Permission must be given from the CHA/PA Program Associate Director of Curriculum and Course Directors from the SOM Faculty.

MPAS 5985 Rural Track Elective I – 1st Year  
C. Ruff, MS, PA-C  
Registration is restricted to those students enrolled in authorized Track. Permission must be given from the CHA/PA Program Associate Director of Curriculum and Course Directors from the SOM Faculty.

MPAS 5987 Urban Underserved Health Track Elective I – 1st Year  
C. Ruff, MS, PA-C  
Registration is restricted to those students enrolled in authorized Track. Permission must be given from the CHA/PA Program Associate Director of Curriculum and Course Directors from the SOM Faculty.

MPAS 6690 Medical Spanish Elective  
R. Foster  
This course is offered to those students interested in a Spanish language elective. Students are tested prior to registering for this course to allow proper placement into beginner or intermediate section.

SPRING SEMESTER  

MPAS 5112 Integrated Sciences Basic to Medicine II  
M. Hall, Ph.D.  
This course is a continuation of MPAS 5111.

MPAS 5131 Systemic Pathology  
N. Draper, MD  
This course is a continuation of MPAS 5130. Normal cell and tissue structure is correlated with functional aspects.

MPAS 5140 Neuroscience  
R. Gisbert, DPT, MS  
Principles of neurophysiology and neuroanatomy are introduced. Membrane receptors, membrane potentials, synaptic transmission, and neuromuscular junctions, blood supply, three dimensional topography of the nervous system. Functional correlates and sensory and motor tracks of the spinal cord and brainstem included.

MPAS 5202 Psychosocial Aspects of Health Care II  
R. Byrne, PA-C  
This course addresses common psychological concerns seen in the pediatric setting, with special attention to the needs of the handicapped child and his family, child abuse, death, alcoholism, etc. Communication skills which enhance information gathering are discussed. Community resources are investigated.

MPAS 5603 Problem-Based Clinical Reasoning III  
R. Maldonado, PA-C  
This course is a continuation of MPAS 5602. Comprehensive care in ambulatory medicine is covered in a problem-based format. This includes infancy to adulthood, health maintenance and acute illnesses, anticipatory guidance/patient education, diagnosis and treatment and developmental assessment.

MPAS 5700 Prevention Across the Lifespan  
J. Nieman, PA-C  
This course will provide the student with topics including immunizations, health maintenance and other prevention topics encompassing health care for patients from newborn to the elderly.
MPAS 5701 EBM & Information Mastery 2.0 cr.
Lisa Traditi, MLS, AHIP.
Students are introduced to the conscientious, explicit and judicious use of current best evidence in clinical decision-making.

MPAS 5802 Professional and Clinical Practice II 1.0 cr.
D. Eckhardt, PA-C
A continuation of MPAS 5801. Successful completion of MPAS 5801 is a pre-requisite.

MPAS 5882 Clinical Cornerstones II 1.0 cr.
D. Eckhardt, PA-C
A continuation of MPAS 5881. Successful completion of MPAS 5881 is a pre-requisite.

MPAS 5902 Community Clinic II 2.0 cr.
J. Sivahop, PA-C
Clinical experience designed to give the student an introduction to ambulatory medicine and an understanding of pediatric and family practice medicine.

MPAS 5911 Pediatric Critical and Acute Care—1st Year 2.0 cr.
D. Eckhardt, PA-C
Clinical experience designed to give the student an introduction to pediatric critical and acute care and pediatric inpatient medicine. Students must complete application process and be accepted before enrollment.

MPAS 5984 Global Track Elective II – 1st Year 1.0 cr.
R. Maldonado, MS, PA-C
Registration is restricted to those students enrolled in authorized Track. Permission must be given from the CHA/PA Program Associate Director of Curriculum and Course Directors from the SOM Faculty.

MPAS 5986 Rural Track Elective II – 1st Year 0.0 cr.
C. Ruff, MS, PA-C
Registration is restricted to those students enrolled in authorized Track. Permission must be given from the CHA/PA Program Associate Director of Curriculum and Course Directors from the SOM Faculty.

MPAS 5988 Urban Underserved Health Track Elective II – 1st Year 1.0 cr.
C. Ruff, MS, PA-C
Registration is restricted to those students enrolled in authorized Track. Permission must be given from the CHA/PA Program Associate Director of Curriculum and Course Directors from the SOM Faculty.

MPAS 5989 LEADS Track Elective 1.0 cr.
J. Bowser, PA-C
Registration is restricted to those students enrolled in authorized Track. Permission must be given from the CHA/PA Program Associate Director of Curriculum and Course Directors from the SOM Faculty.

MPAS 6691 Medical Spanish Elective 0.0 cr.
R. Foster
This course is offered to those students that are interested in a Spanish language elective. Students are tested prior to registering for this course to allow proper placement into beginner or intermediate section. Department Consent required.

IPED 5002 Interprofessional Education and Development 0.0 cr.
SOM Faculty
This course develops core competencies in teamwork and collaboration, values and ethics, and quality and safety for first-year health professions students. The course will be taught in a team-based format requiring individual preparation before each session followed by the application of that learning through team-based activities.

ALL SEMESTERS

MPAS 5951 CHA/PA Independent Study-1st Year 1.0 cr.
C. Ruff, MS, PA-C
Approval is required by Associate Director of Curriculum. This course is offered to those students that are pursuing an independent course of study for 16 hours during the semester they are enrolled.

MPAS 5952 CHA/PA Independent Study-1st Year 2.0 cr.
C. Ruff, MS, PA-C
Approval is required by Associate Director of Curriculum. This course is offered to those students that are pursuing an independent course of study for 32 hours during the semester they are enrolled.
MPAS 5953 CHA/PA Independent Study-1st Year 3.0 cr.
C. Ruff, MS, PA-C
Approval is required by Associate Director of Curriculum. This course is offered to those students that are pursuing an independent course of study for 48 hours during the semester they are enrolled.

SUMMER SEMESTER  SECOND YEAR

MPAS 6601 Community Clinic I 2.0 cr.
J. Sivahop, PA-C
Students will learn clinical skills in a variety of settings. Skills will include history taking, physical diagnosis, assessment and patient management under the supervision of community clinical preceptors.

MPAS 6671 Guatemala Clinical Immersion Experience I 2.0 cr.
R. Maldonado, PA-C
Two-week Spanish language immersion experience followed by a two-week primary care clinic experience in the country of Guatemala.

MPAS 6672 Guatemala Clinical Immersion I for Global Health Track 2.0 cr.
R. Maldonado, PA-C
Two-week Spanish language immersion experience followed by a two-week primary care clinic experience in the country of Guatemala for fulfillment of Global Health Track requirements. Requisite: Spanish language immersion experience followed by a two-week primary care experience in the country of Guatemala for fulfillment of Global Health Track requirements.

MPAS 6680 Track Elective Experience I- 2 Weeks 2.0 cr.
C. Ruff, MS, PA-C
Two-week experiential learning opportunity associated with interprofessional track area of interest. Registration is restricted to those students enrolled in authorized Track. Permission must be given from the CHA/PA Program Associate Director of Curriculum and Course Directors from the SOM Faculty.

MPAS 6687 LEADS Track Elective Experience 0.0 cr.
J. Bowser, PA-C
Six to eight-week experiential learning opportunity associated with interprofessional LEADS track. Registration is restricted to those students enrolled in authorized Track. Permission must be given from the CHA/PA Program Associate Director of Curriculum and Course Directors from the SOM Faculty.

MPAS 6688 Rural Track Elective Immersion Experience 0.0 cr.
C. Ruff, MS, PA-C
Two-week experiential learning opportunity associated with interprofessional rural track. Registration is restricted to those students enrolled in authorized track. Permission must be given from the CHA/PA Program Associate Director of Curriculum and Course Directors from the SOM Faculty.

MPAS 6689 Track Elective Experience II- 4 Weeks 3.0 cr.
C. Ruff, MS, PA-C
Four-week experiential learning opportunity associated with interprofessional track area of interest. Registration is restricted to those students enrolled in authorized Track. Permission must be given from the CHA/PA Program Associate Director of Curriculum and Course Directors from the SOM Faculty.

FALL SEMESTER  SECOND YEAR

MPAS 6101 Pharmacology I 2.0 cr.
T. French, Ph.D.
Discussion of the clinical aspects of drug absorption, metabolism, excretion, and the dynamics of drug action.

MPAS 6110 Immunology 1.0 cr.
J.J. Cohen, M.D., Ph.D.
A comprehensive course of basic and some clinical immunology with the stress on the human immune system. Restricted to CHA/PA students.

MPAS 6201 Applied Behavioral Medicine I 2.0 cr.
R. Byrne, PA-C
Discussion of emotional, behavioral, psychosomatic and psychiatric problems commonly encountered by physician assistants in primary care settings. Evaluation, management and appropriate referral will be emphasized.

</table>

This course provides knowledge of a variety of medical and surgical problems unique to infancy, childhood, and adolescence that may be encountered in the primary care setting, including pathophysiology, diagnosis and treatment. The pedagogical approach to this course is the application of knowledge to patient cases, and has a large component of interactive clinical case examples and class discussion.

Discussion of adult medical and surgical conditions, including pathophysiology, diagnosis and treatment.

Discussion of the principles of assessment and management of medical and surgical emergencies.

Students will learn clinical skills in a variety of settings. Skills will include history taking, physical diagnosis, assessment and patient management under the supervision of community clinical preceptors.

Students will learn clinical skills in including variety of settings. Skills will include history taking, physical diagnosis, assessment and patient management under the supervision of community clinical preceptors.

Students will develop assessment and patient management skills in care of pediatric patients in critical and acute care and inpatient settings. Restricted to CHA/PA students. Students must complete application process and be accepted before enrollment.

Registration is restricted to those students enrolled in authorized Track. Permission must be given from the CHA/PA Program Associate Director of Curriculum and Course Directors from the SOM Faculty.

Registration is restricted to those students enrolled in authorized Track. Permission must be given from the CHA/PA Program Associate Director of Curriculum and Course Directors from the SOM Faculty.

Registration is restricted to those students enrolled in authorized Track. Permission must be given from the CHA/PA Program Associate Director of Curriculum and Course Directors from the SOM Faculty.

Registration is restricted to those students interested in a Spanish language elective. Students are tested prior to registering for this course to allow proper placement into beginner or intermediate section.

This course is offered to those students that are continuing their training in a medical Spanish language elective. Prerequisite: Restricted to 1st and 2nd year CHA/PA Students who have taken MPAS 6690 and 6691.

This core course is designed to continue to explore professional practice issues, facilitate the development of various clinical skills through discussion and simulation, and integrate didactic and clinical coursework. MPAS 5801 and 5802 are pre-requisites.
MPAS 6883 Clinical Cornerstones III
D. Eckhardt, PA-C
This course reinforces key concepts of teamwork, leadership and communication when solving clinical scenarios. Clinical practice skills such as SOAPE notes, oral presentation and evidence based clinical decision-making through the use if Simulation are incorporated. Successful completion of MPAS 5881 and 5882 is a pre-requisite.

IPED 6001 Interprofessional Education and Development II
SOM Faculty
To improve population health, quality of care, and reduce health care costs through the creation of a patient-centered, collaborative practice-ready workforce with competencies in: quality and safety, values and ethics and teamwork and collaboration in the context of systems and systems-based practice. This is a continuation of IPED 5002.
