**Step 7.** Open up Windows Explorer and navigate to
C:\Users\username\AppData\Local\Microsoft\Outlook

**Note:** In order to see the AppData folder you will need to turn on show Hidden items option, in Windows 8 you can do this from the View tab. On Windows 7 you can do this from the ‘Organize’ drop down window, Folder and Search Options, Click on the ‘View’ tab and click the option ‘Show hidden files, folders and drives’

**Note:** Take note of any personal archive files that may reside in here (files that end in .PST) and move them to another location, a personal Network drive would be ideal.
