

University of Colorado Denver
College of Engineering and Applied Science
CVEN-5333 Surface Water Hydrology

Spring 2019

Lecture: Mon/Wed 5:00-6:15 pm

Location: North Classroom 1311

Office Hours: Mon 3:30-4:45 pm, Wed 2:00-3:30 pm

→ and by appointment (with 24 hour notice)

Instructor: David C. Mays, P.E., Ph.D.

Office: North Classroom 2014-A

Phone: 303-315-7570

E-mail: david.mays@ucdenver.edu

http://www.ucdenver.edu/dmays/5333

Catalog Description: Fundamentals of hydrology emphasizing surface water processes. Topics include the hydrologic cycle, frequency analysis, drought management, flood routing, rainfall-runoff relationships (rational method, unit hydrograph, and hydrologic software) and hydrologic design.

Prerequisites: Graduate standing in engineering or instructor consent. Course requires Microsoft Excel.

Course Objectives: At the end of the semester, you should be able to:

1. Explain the hydrologic cycle and state the equations used to describe each sub-process.
2. Predict flood magnitudes from data, probability distributions, and recurrence intervals.
3. Choose the best modeling approach: rational method, unit hydrograph, or hydrologic software.
4. State the basic concerns and major regulations related to water quality.
5. Use hydrologic principles to design drainage, detention, and retention systems.

Required Text: P.B. Bedient, W.C. Huber and B.E. Vieux (2013), *Hydrology and Floodplain Analysis*, 5th ed., Pearson, Upper Saddle River, NJ, ISBN 978-0-13-256796-1.

Week	Dates	Topic	Reading Assignment*
1	1/23	Hydrologic Cycle	13.3, 1.1, 1.4, 2.1, 1.2, G-2009
2	1/28, 1/30	Precipitation and Infiltration	2.6, 1.3, 2.7
3	2/4, 2/6	Groundwater and Streamflow	8.1-8.3, 8.8, 2.8, 1.6, 1.8
4	2/11, 2/13	Snow Hydrology	2.9, P-1989 (Chapter 12, §3.2)
5	2/18, 2/20	Engineering Probability	3.1-3.7, C/M/M-1988a, DR-2011
6	2/25, 2/27	Drought Management (EXAM #1)	3.8, M-2005
7	3/4, 3/6	Reservoirs and Routing	4.1-4.3, 4.6 (260-267), 4.7 (272-276)
8	3/11, 3/13	Rational Method	1.5, 6.2 (346-349), 6.4 (359-367)
9	3/18, 3/20	Unit Hydrograph	1.7, 2.2, F-2002
10	4/1, 4/3	Synthetic Unit Hydrograph	2.3-2.5
11	4/8, 4/10	HEC-HMS (Hydrologic Software)	5.1-5.6
12	4/15, 4/17	Contaminant Hydrology (EXAM #2)	N/AC-2001
13	4/22, 4/24	Hydrologic Design	6.1, 6.3, 9.1-9.4, C/M/M-1988b
14	4/29, 5/1	CUHP (Hydrologic Software)	U-2016
15	5/6, 5/8	Floodplain Management	9.5, 12.1-12.6, 13.5

* Readings C/M/M-1988, DR-2011, N/AC-2001, F-2002, M-2005, P-1989, U-2016 and G-2009 are on the course website.

Midterms: Wednesday 2/27/2019 (weeks 1-4), Wednesday 4/17/2019 (weeks 1-9).

Final Exam: To be scheduled during Exam Week (Monday 5/13/2019 to Friday 5/17/2019)

Grades: 20% homework, 20% each midterm, 35% final exam, 5% participation.

Homework

Homework will be assigned in class each Monday or through the “Assignments and Answers” link on the course website, and will be due in class Wednesday of the next week. Engineering paper is strongly encouraged but not required. I reserve the right to return homework for re-write and re-submit if it is (1) illegible, or (2) does not comply with the following standards:

1. At the top of *each* page, write your name, class number, homework number, due date, and page of total. For example, for a 5-page submission, the first page is 1 of 5, the second 2 of 5.
→ *If you are submitting late, also write the date submitted on the first page.*
2. Draw a picture for *each* problem. Use a straight edge for straight lines.
3. Briefly restate *each* problem in your own words. Do not copy the problem statement verbatim.
4. State what you are going to calculate under heading FIND.
5. State any relevant assumptions, including assumed precision of input numbers.
6. Indicate the units for all numbers, not just final results, except for dimensionless ratios.
 - a. *Please write 5 ft rather than 5' and 8 in rather than 8".*
 - b. *Units like psi are fine for results, but use lb/in² to show unit cancellation in work.*
 - c. *Use the same units (metric or US) as the problem statement.*
7. Write each result, with the correct number of significant digits, on its own line.

These standards will help you establish the professional habit of producing clear calculations in compliance with given requirements. You will produce a set of documents that you may reference down the road for your FE exam or PE exam or both. These standards will also simplify grading, which means you get your homework back faster, and they keep the grader happy—which is always a good thing. Homework grades are A (100%), B (85%), C (75%), D (65%), and F (0%). Homework will be graded for correctness, approach, and presentation. To earn an A, you must clearly and correctly calculate all the problems while fully complying with the standards.

- Late homework will be penalized by 10% per class (except by 15% from A→B). However, no credit will be granted for assignments whose solutions have been posted online.
- Late homework not stating the date submitted will be penalized by one letter grade.
- Unstapled homework (with more than one sheet of paper) will be penalized by one letter grade.
- Except by prior arrangement, homework submitted electronically or any time outside office hours or class will be penalized by one letter grade.

Participation

Rationale for participation grade: Learning is an activity that we perform (like dancing, fixing cars, or skiing) rather than a commodity that we purchase. I will attempt to call on each of you each week. You are expected to reply every time. Why? Because you are training to become a professional, who will be called upon to speak up and answer technical questions. People will expect you to be prepared. This means you should complete the reading assignment before class. If you make a habit of missing class, your participation grade will suffer.

Communication

You are required to check your official university e-mail account at least once every 24 hours during business days, or arrange to have your e-mail from this account forwarded to another e-mail account that you check at least once every 24 hours during business days. For details, see the university website.*

Academic Integrity

This course will comply with the *2018-2019 Undergraduate Catalog* or *2018-2019 Graduate Catalog*, including the Academic Integrity And Discipline Policies,[†] and with the Student Honor Code for the College of Engineering and Applied Science. You must perform and present your own work. Studying with others may be useful, but copying assignments—from a solutions manual, from other students, from a paid tutor, or from any other source—or cheating on exams will not be tolerated. Midterm and final exams will be governed by an Exam Policy to be distributed separately. Importantly, to avoid plagiarism, cite your sources using American Society of Civil Engineers format.[‡]

General

- Snow Closure Hotline 877-556-3637.
- I am happy to work with students needing special accommodations. The university asks students to register with Disability Resources and Services (DRS), who then evaluate each situation on a case-by-case basis. I will provide accommodations per the official letter I receive from DRS.
- Missed exams will receive an F, except (a) when special arrangements have been made with me ahead of time, or (b) with documentation of a medical emergency.
- Unclaimed homework, reports and exams will be destroyed on or after 2/1/2019.
- Grades will not include plus or minus designations.
- Syllabus subject to revision.
- Students are responsible for all material presented in lecture, readings, homework, and communicated by e-mail.

Finally, this semester's Academic Calendar and our Student Honor Code are attached below. If you have not done so already, please sign the Student Honor Code and return it to the department office.

Welcome to the class!

MONTH	DAY	DEADLINE	IMPORTANT NOTES
OCTOBER	1	➤ First day to submit a residency petition for Spring	
NOVEMBER	1	➤ First day to apply for Spring Graduation via UCDAccess .	
	1-18	➤ Registration begins for Spring Semester via UCDAccess. Check UCDAccess for your specific registration date and time assignment.	❖ For best course selection, register as soon as possible after your registration time assignment. ❖ NEW students, prior to registering a \$200 Registration Advance Payment is required, it will be applied to your tuition and fees*.
DECEMBER	7	➤ Residency priority review deadline date	❖ Submitting a petition by the priority review deadline date guarantees the petitioner will be notified of a decision before the first day of the term.
JANUARY	14	➤ Last day to petition for resident tuition status. ➤ Last day to submit the online out-of-state tuition application.	
	21	➤ Martin Luther King Jr. Holiday ➤ Last day to DROP all classes via UCDAccess and receive a refund of the \$200 advance payment. No tuition assessed.	❖ You must DROP your classes via UCDAccess on this day in order to receive a refund of the \$200 advance payment.
	22	➤ First day of Spring semester classes	
	27	➤ Last day to WAITLIST classes using UCDAccess.	
	28	➤ Last day to drop a class without a \$100 drop charge. ➤ First day to add classes with the Late Add Form with instructor approval	❖ All waitlists will be eliminated today.
FEBRUARY	6	➤ CENSUS DATE – until 5:00 PM. ➤ Last day to ADD full term classes with the Late Add Form with instructor approval ➤ Last day to DROP full term classes with a financial adjustment. ➤ Last day to request No Credit or Pass/Fail grade for a class. Last day to apply for Spring graduation via UCDAccess. After this date, contact your advisor.	❖ After this date, dropped classes will appear on your transcript with a grade of 'W'. ❖ After this date, you will be charged the full tuition amount for additional classes added – College Opportunity Fund hours will not be deducted from eligible student's lifetime hours.
MARCH	25-31	➤ Spring Break	❖ No classes. Campus open.
APRIL	7	➤ Last day to WITHDRAW from a class via UCD Access	
	8	➤ First day to WITHDRAW from a class with a required authority signature on a Late Withdraw Petition Form	
MAY	7	➤ Last day to WITHDRAW from a class with a required authority signature on a Late Withdraw Petition Form	
	8	➤ First day to WITHDRAW from a class through the Retroactive Withdrawal Process	❖ Please contact your academic advisor about how to petition for the Retroactive Withdrawal Process
	13-18	➤ Finals week.	
	18	➤ End of semester – Commencement. ➤ Last day to authorize College Opportunity Fund (COF) via UCDAccess	
	23	➤ Final grades available on UCDAccess and transcripts (tentative).	
JUNE	28	➤ Spring degrees posted on UCDAccess and transcripts (tentative).	❖ This is the date your degree will be recorded on your transcript; diplomas won't be mailed out until July 19.

Continuing and Professional Education student dates & deadlines may vary; please see your advisor.

Intensive and Module classes require the same amount of work and number of classroom hours as full-term classes. Intensive classes are less than five weeks. Module classes last five or more weeks, but less than full term. Module/intensive classes may be added up until the first day of the class. After the first day of class, late starting module or intensive classes may be added with the instructor's signature approval. Instructor approval is not required to drop the class within the first 15% of class meetings.

***Additional Billing/Financial Information:** (1) The ONLY exception to the \$200 Registration Advance Payment requirement is if the Financial Aid Office has received your FAFSA data and you have completed the University Application for Financial Aid. (2) Students are responsible for complying with tuition/fees deadlines. All registered students must access their student account and billing information through UCDAccess. You will also receive an electronic bill to your university email account.

Maymester 2019 (tentative)	May 20	Maymester Classes begin	
	May 27	Memorial Day Holiday – No classes	Campus Closed
	June 6	Maymester Classes End	
Summer 2019 (tentative)	June 6	Summer Classes begin	
	July 4	Independence Day Holiday – No classes	Campus Closed
	Aug. 3	End of semester	
Fall 2019 (tentative)	Aug. 19	Classes begin	
	Sept. 7	Labor Day Holiday – No classes	Campus Closed
	Nov. 25-Dec 1	Fall Break – No classes	Campus Open
	Nov. 28	Thanksgiving Day Holiday – No classes	Campus Closed
	Dec. 14	End of Semester - Commencement	

Student Honor Code

The Honor Code outlined below is the College of Engineering and Applied Science statement on academic integrity. The Code articulates the College's expectations of its students and faculty in establishing and maintaining the highest standards in academic work.

Honor Code Text

The Honor Code of the College of Engineering and Applied Science is a statement of its students, individually and collectively:

- Students will not give or receive aid during examinations.
- Students will not use any prohibited electronic devices during examinations.
- Students will not give or receive unpermitted aid in class work, in the preparation of reports, or in any other work that is to be used by the instructor as the basis of grading.
- Students will uphold the spirit and letter of the Honor Code and they will take an active role to ensure that others uphold the Honor Code and if they observe violations of the Honor Code they must report violations to their Department Chair.
- The Faculty of the College will do its part to ensure its confidence in the honor of its students. Faculty must ensure that precautions are in place to prevent the forms of dishonesty mentioned above. Faculty will also avoid, as far as practical, academic procedures that create temptations to violate the Honor Code. Faculty alone has the right and obligation to set academic requirements. However, the students and faculty will work together to establish optimal conditions for honorable academic work.

Violations of the Honor Code

Examples of conduct that will be regarded as being in violation of the Honor Code include:

- Copying from another's examination paper or allowing another to copy from one's own paper.
- Plagiarism in any shape or form. Plagiarism is defined as the use, without giving reasonable and appropriate credit to or acknowledging the author or source, of another person's original work, whether such work is made up of code, formulas, ideas, language, research, strategies, writing or other form(s).
- Giving or receiving unpermitted aid either in person or via electronic devices.
- Engaging in unauthorized collaboration on academic assignments or examinations.
- Representing as one's own work the work of another.

Penalties for Violating the Honor Code

Most student disciplinary cases have involved Honor Code violations. Of these, most cases arise when a student submits another's work as his or her own, gives or receives unpermitted aid, or engages in unauthorized collaboration. If a violation occurs during a quiz or on a homework assignment, the student will receive a zero for that quiz or assignment. If a violation occurs on an examination, the student will receive a failing grade for the course. The standard penalty for a first offense may include suspension from the College of Engineering and Applied Science for a severe infraction of the Honor Code. The penalty for a second violation will be expulsion from the College of Engineering and Applied Science.

It is the responsibility of the student to seek clarification from the instructor when in doubt about these guidelines.

By signing below, I affirm that I have read and understood the Student Honor Code and will abide by its provisions.
