   (A) By specific action of the Board of Regents the designation of "distinguished professor" is bestowed on university faculty members who have distinguished themselves as exemplary teachers, scholars, and public servants, and who have extraordinary international importance and recognition.

   (B) Further, such designations shall be awarded only on the recommendation of the appropriate campus chancellor and the president of the university following departmental nomination and justification; review by the office of the concerned dean(s); screening by a committee of senior faculty peers who will advise the chancellor about the merit of each proposal; and screening by a university-wide faculty committee who will advise the president.
