Announcing the COAHEC Biennial NEAR Conference Call for Poster Abstracts!!

September 25-27, 2020
CU South Denver Campus
Lone Tree, Colorado

We welcome posters from Professionals, Residents, and Students

Deadline to submit abstracts: June 30th 2020

The NEAR conference rotates throughout the state of Colorado in rural, urban, and medically underserved areas to enhance partnerships among providers of those rural and medically underserved areas.

We are expecting 400 attendees representing a wide variety of disciplines from all over Colorado. Our focus is on health care professionals who are currently or are interested in precepting the next generation.

Our 2020 conference will be in the Denver area to bring attention to the medically underserved population in the Denver Metro area.

Conference Goals:
- Improve the quality and community health outcomes in rural and urban medically underserved areas.
- Provide access to evidence-based health information.
- Provide high quality continuing education and support for health care providers serving in rural and urban medically underserved communities in Colorado.

Conference theme is healthcare in rural and urban medically underserved areas
- Suggested presentations may describe efforts at the local, regional, or national level.
- Presentation topics that fall outside of the areas outlined in, “General Information and Eligibility” but still align with the conference goals are welcome.
