Identify Your Major

Students can determine their declared major in UCDAccess by going into the Student Center and through the “My Academics” and “My Program” sections.

Step 1: Go to [http://www.ucdenver.edu/UCDAccess](http://www.ucdenver.edu/UCDAccess) and login with your CU Denver username and password.

If you have not yet claimed your official university account, or you have forgotten your username and password, click “Need Help?” in the upper-right-hand corner.

Step 2: Under your Student tab on the left-hand side of the page, you will see the menu items here on the left. Click “Student Center” then “All Student Functions”

Step 3: Click “My Academics”
You should now see a section titled “My Program.” The “Program” listed refers to the CU Denver school/college where your major resides. For example, College of Liberal Arts and Sciences or Business School. You will also see your “Major” listed right below “Program.” In the example below, the student is enrolled in the College of Architecture and Planning (Program), and the major is Architecture.

Students with additional majors, minors, and/or certificates will see this information listed, as well. The example below shows a student in the College of Liberal Arts and Sciences (Program) whose major is International Studies, who is minoring in Sustainability, and who is earning a certificate in Sustainable Urban Agriculture.
Some students may have a declared emphasis in their degree program. The example below shows a student in the College of Arts and Media (Program) whose degree program is Music, with an emphasis in Music Business (non-audition track).
