Supplemental Instruction (SI)

Summer 2020

Summer SI Sessions begin Monday, June 8 through Friday, July 24

SI is a series of weekly interactive and collaborative study sessions for students taking traditionally difficult classes. Supplemental Instruction Sessions are FREE!

What to expect with SI:

• actively engage in critical thinking and analyzing concepts
• receive clarification and reinforcement of most difficult concepts
• collaboratively work and engage with your classmates • NOT a re-lecture
• develop strategies for studying
• compare and discuss notes with classmates
• a place to learn and make mistakes

CHEM 2031.001—GENERAL CHEMISTRY I

SI Leader: Halimah Hamidu
Instructor: M. Maron
Lectures: M/W 8:15am-10:45am

Summer 2020 SI will be conducted remotely via Zoom sessions. Please check your Canvas announcements or contact your SI Leader for the Zoom Meeting ID#.

The available sessions indicated will cover the same material. Students only need to attend one set of sessions. For example: either M/W—or—T/R

Sessions are subject to change. Please continue to check your Canvas announcements for the latest schedules.
