ORDE Faculty Seminars: Spring Semester

February

AMC: KYA Lunch: NCI
February 7, 2017
12:00 – 1:30 pm
Location: TBD
Registration Link: https://www.surveymonkey.com/r/KYA-NCI
Faculty Expert: James DeGregori, Courtenay C. and Lucy Patten Davis Endowed Chair in Lung Cancer Research

Description: In the Know Your Agency Lunches, we feature a specific agency and ask either an investigator funded by the agency or an agency insider to give an overview of the agency and offer some of the nuances that might not be readily available on the website or program announcement. These lunches also offer an opportunity for investigators interested in applying to the agency the chance to ask questions of someone more experienced with the agency.

Denver: Research Management Strategies
February 15, 2017
12:00 – 2:00 pm
Location: Lawrence Street Center, Rm 745
Registration Link: https://www.surveymonkey.com/r/ResMngmtStrat
Faculty Expert: Scott Reed, Associate Professor, Chemistry

Description:
To say that faculty researchers juggle multiple responsibilities is an understatement. The research responsibilities alone consist of managing projects, working on publications, writing grant proposals, working with Program Officers, etc. This seminar offers several strategies to manage your time and these responsibilities while still being intentional as you move toward your long-term research career goals.
March

**Denver: Career Programs**

March 7, 2017  
12:00 – 2:00 pm  
Location: Business School, Rm 3600  
Registration Link: [https://www.surveymonkey.com/r/CareerProg](https://www.surveymonkey.com/r/CareerProg)  
Faculty Experts: Jae Do Park, Associate Professor, Electrical Engineering and Amy Wachholtz, Assistant Professor, Psychology

Description: During this seminar, you will learn about the NSF CAREER program and the NIH mentored-K programs, as well as strategies for approaching these unique grants. You will learn tactics and experiences from a past K and CAREER awardee.

**AMC: NIH K Award Grant Planning Seminar**

March 16, 2017  
12:00 – 3:00 pm  
Location: Health Sciences Library, Reading Room  
Registration Link: [https://www.surveymonkey.com/r/NIH-K-Award](https://www.surveymonkey.com/r/NIH-K-Award)  
Faculty Expert: William W. Hay, Jr., Professor of Pediatrics

Description: During this working seminar, you will learn about the NIH’s K award grant programs, as well as strategies for approaching these unique grants. You will learn tactics and experiences from past K awardees and have an opportunity to get feedback on your K plan from your peers and awardees.

April

**AMC: The Review Process: NIH**

April 11, 2017  
12:00 – 2:00 pm  
Location: Health Sciences Library, Labs 1 & 2  
Registration Link: [https://www.surveymonkey.com/r/NIHRevProcess](https://www.surveymonkey.com/r/NIHRevProcess)  
Faculty Guest Expert: Elizabeth J. Kovacs, Director, Burn Research; Professor, Department of Surgery

Description: Once you submit your NIH grant proposal, what happens? Who looks at it first? What decisions are made initially and by who? How do study sections work and how do they interface with the institutes themselves? How are the reviewers chosen and what criteria are they using? Who ultimately decides if you’re funded? If you have any of these questions or others about the NIH review process, this seminar is for you. Join us as we walk through the NIH official review process and hear from a long time NIH reviewer.
