ENVIROMENTAL HEALTH AND SAFETY | HAZARDOUS MATERIALS

Green Tag Form

Following inspection, a copy of this form must be posted on the equipment / in the lab in question. See ucdenver.edu/greentag for more information. Completed form must be emailed to ehs.greentag@ucdenver.edu

This certifies that the equipment / lab space described below has been properly cleaned, and all controllable hazards have been minimized.

<table>
<thead>
<tr>
<th>Intended action:</th>
<th>☐ Equipment repair/maintenance ☐ Equipment disposal ☐ Equipment move ☐ Vacating lab space</th>
</tr>
</thead>
<tbody>
<tr>
<td>Building and room no(s):</td>
<td></td>
</tr>
<tr>
<td>Equipment description:</td>
<td></td>

<tr>
<td>Model / serial no.:</td>
<td></td>
</tr>
<tr>
<td>Actions taken to address biological / chemical / radioactive contamination hazards:</td>
<td></td>
</tr>
</tbody>
</table>

Department:

Principal investigator:

I certify that I have cleaned all affected surfaces, disinfected for all biological contaminants, and removed all hazardous chemical and radioactive contaminants from the equipment / space noted above using appropriate mechanical and chemical agents.

Lab representative name (print): ________________ (sign): ________________

Phone: __________________________ Date: __________________________

EHS has reviewed the above information and department records to ensure the relevant biological, chemical, and radioactive hazards have been addressed.

EHS representative (print): ________________ (sign): ________________

Phone: __________________________ Date: __________________________

To be completed by EHS Radiation Safety only if isotopes were used with the equipment / in the lab space noted above.

RAM survey performed by: __________________________ Phone: __________________________

Radiation Safety confirms that no radioactive contamination was detected.

EHS comments for SAM staff:
