

As an out-of-state student, how was your transition from your home state to Colorado?

The urban campus was a little bit unusual at first, but it quickly grew on me and became my home.

Which resources have you utilized while you were at the University, and how was your experience with those resources?

Eco pass was a real life saver. There were days that I left campus too exhausted to navigate an automobile safely.

Have you joined any clubs or organizations while at the University?

I was employed by Denver Transfer Initiative (DTI) for six semesters.

What is your most memorable experience while at the University?

The thirteen week sprints to Fall break each Fall.

Rate how your experience with the Denver Bound Scholarship program has been? (1 being worst and 5 being the best)

score-5. I felt like they gave me encouragement and introduced me to many resources and people that I would not ordinarily have had at my disposal.

What advice would you like to give to current and future Denver Bound students?

Make sure you know everything you can about a course and a professor before enrolling in their course. It can make the difference in a semester. In my experiences I found that you can have great semesters and terrible semesters. It really depends on the course pairing and the professors that you get.

What are your future career goals and how has the University helped you in getting close to those goals?

Work toward becoming a certified Actuary.
