Description:
The Center for Global Health at the Colorado School of Public Health, in collaboration with the Denver, Aurora Fitzsimmons, Evergreen, University Hills and Southeast Denver Rotary Clubs, is pleased to announce the continuation of a scholarship for University of Colorado graduate students in the health sciences or public health. The goal of this scholarship is to provide small ($1,000) grants to individual students who plan on realizing a health-related training experience or community health project abroad during 2016-2017.

Rotary is an internationally recognized vocational service organization dedicated to the promotion of peace and international understanding through all useful professions. Our local Rotary District (5450) (http://www.rotary5450.org/) has demonstrated an ongoing dedication to the value of using health care in its many forms to promote collaboration and fraternity between distant communities. It is in this spirit of international understanding and collaboration that we have jointly worked to established this scholarship.

Values of Rotary:
The Object of Rotary is to encourage and foster the ideal of service as a basis of worthy enterprise and, in particular, to encourage and foster:

- FIRST. The development of acquaintance as an opportunity for service;
- SECOND. High ethical standards in business and professions, the recognition of the worthiness of all useful occupations, and the dignifying of each Rotarian's occupation as an opportunity to serve society;
- THIRD. The application of the ideal of service in each Rotarian's personal, business, and community life;
- FOURTH. The advancement of international understanding, goodwill, and peace through a world fellowship of business and professional persons united in the ideal of service.
