

# How to enable RSS on a list

## Workarounds

---

1. Go to the website or list
2. Sign in as a siteowner or content manager
3. Go to Manage Content and Structure
4. Locate the list in need of RSS
5. Open the list in a new window
6. On the Ribbon, click the List tab
7. Click the List Settings button
8. Click the RSS Settings link
9. Under the Allow RSS for this list option, click the Yes radio button
10. Click Ok
11. Using the breadcrumbs, click the name of the list
12. On the Ribbon, click the List tab
13. Click the RSS Feed button
14. An RSS feed should now be available
