

How to publish a page in a "With Approval" website that is not using Publish buttons on the page

1. Page Image
2. Page Content
3. Go to the page you need to publish
4. Sign in
5. Go to Manage Content and Structure
6. Go to the Pages folder
7. Click Publish for the page in question
8. You will get an approval form
9. Submit the form
10. You will get an error message
11. Hit Ok
12. Go back to the Pages folder
13. The page should now be pending
14. Approve the page
15. It should now be published
