

STATE PROFESSIONAL LICENSURE BOARDS

Federal regulations require CU Denver to publicly disclose, for each educational program designed to meet the educational requirements for a specific professional license or certification required for employment in an occupation (or advertised as meeting those requirements), information about whether program completion would meet those requirements in a state. These public disclosure requirements apply to all programs, regardless of their modality (i.e., on-ground, online, and hybrid programs). CU Denver discloses we have not determined if our curriculum meets any state licensure requirements.

All current and prospective students are encouraged to contact the applicable professional licensure boards in their respective states for additional information regarding professional licensure requirements, including, without limitation, information regarding any non-educational requirements (such as work experience, background clearance, or examination by outside entities).

State professional licensure requirements are subject to change at any time.
