

PROGRAM OVERVIEW

CU Denver offers a Bachelor of Fine Arts (BFA) degree in Fine Arts with an emphasis in 3D Graphics and Animation, through our Digital Animation Center (DAC). We train students to be 3D digital content creators, preparing them for the entertainment and feature film industries. Focusing on developing not only skills as creative artists, the DAC program readies the student to work as a creative artist within a collaborative environment. Most professional digital content creators work with up to 500 other artists; the DAC program prepares students for this world, focusing on how to exercise individual artistry while simultaneously fulfilling the broader vision of a final production. At the core of the DAC's teaching philosophy is an intense focus on placing the students, wherever possible, into a production "pipeline model" which helps the students to see themselves and their work as it fits into an overall production. We create an on-campus production studio where students apply for various roles, are organized into teams, and work together over an extended period to develop collaborative art.

ACADEMIC ADVISING

Freshmen with fewer than 30 credits and/or CAM students who are Undeclared are assigned to the Center for Undergraduate Exploration and Advising (CUE&A). All other College of Arts & Media (CAM) students with more than 30 credits who have declared CAM majors are assigned to the CAM Office of Advising and Student Services.

Students with a declared CAM major that have more than 30 credits are encouraged to meet with a CAM advisor every semester prior to registration.

GENERAL GRADUATION REQUIREMENTS & POLICIES

All CU Denver CAM students are required to complete the following minimum general graduation requirements:

1. Complete a minimum of 120 semester hours.
2. Achieve a minimum 2.0 CU cumulative grade point average (GPA).
3. Complete a minimum of 45 upper division (3000/4000 level) credits.
4. Complete all college and major requirements.
5. Residency: complete a minimum of 30 CU Denver hours in good standing at CU Denver.

PROGRAM REQUIREMENTS & POLICIES

The DAC program takes four years (eight semesters) to complete. This length of time is necessary for students to understand the business model, complex tools, history, and contemporary context of making effective art. Students should take two introductory courses (typically starting the first fall semester and finishing in the first spring semester) at CU Denver to build portfolios. Students submit their portfolios for review after the spring semester. Those students accepted into the DAC *Core Cadre* can continue by taking advanced emphasis courses the following fall semester. The program is structured with only one path through the course work (meaning everyone takes the same classes in the same order). Emphasis courses take a minimum of eight semesters to complete, assuming students start in fall semester and are accepted into the program the first time they apply. To be eligible to apply for admission, students must complete (or be currently enrolled in) a minimum of 3 courses: FINE 1810 3D Foundations and FINE 1820 Animation Foundations. *In an effort to respond to changing industry trends, this program is currently revising its curriculum for potential growth. As such, the specific course requirements may change. The total number of DAC courses and their related tuition structures will remain unchanged.*

Students are responsible for meeting with a CAM advisor to confirm degree progress. Students completing the Fine Arts BFA Degree with an emphasis in 3D Graphics and Animation are required to complete the following minimum program requirements:

1. Complete 34 semester hours of **CU Denver Core Curriculum coursework**.
2. Complete a minimum of 81 semester hours of **major-area coursework** with a grade of C (2.0) or better in each course.
3. Complete a 3-credit College of Arts & Media graduation requirement.
4. After completing the initial 3D Animation courses, students must apply to the Digital Animation Center's Core Cadre in order to gain access to the advanced courses. More information on these application processes can be obtained by contacting CAMadvising@ucdenver.edu.

SAMPLE ACADEMIC PLAN OF STUDY

The following academic plan is a *sample* pathway to completing degree requirements for this major. The plan below is intended for first-time, First-Year students. This sample schedule can be adjusted to accommodate AP, IB, and/or CLEP credits, as well as courses taken during the summer sessions. In addition, students should tailor this plan based on transfer credit, course availability, and individual preferences related to course load, schedules, or add-on programs such as minors or double-majors. **Students deviating from this plan must fulfill course prerequisites and should meet with an advisor to confirm course sequencing and degree requirements. In an effort to respond to changing industry trends, this program is currently revising its curriculum for potential growth. As such, the specific course requirements may change. The total number of DAC courses and their related tuition structures will remain unchanged.**

Year One	Semester 1		CRS
	FINE 1810 PREDAC: 3D or FINE 1820 Animation Foundations	3	
	FINE 1100 Drawing I	3	
	FINE 2600 Art History Survey I (fulfills major req't and Humanities)	3	
	First-Year Seminar (fulfills a CU Denver CORE req't)	3	
	CU Denver CORE Math requirement	3	
	TOTAL SEMESTER HOURS	15	

Semester 2		CRS
FINE 1810 3D Foundations or FINE 1820 Anim Foundations	3	
FINE 1400 2-Dimensional Design	3	
FINE 2610 Art History Survey II	3	
ENGL 1020 Core Composition I	3	
CU Denver CORE requirement	3	
<i>APPLY TO 3D EMPH (DAC) VIA PORTFOLIO REVIEW</i>
