

PROGRAM OVERVIEW

The Early Childhood Education (ECE) track in the Education and Human Development (EDHD) major has a strong focus on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. Provided is a robust knowledge base and relevant learning experiences in children's thinking, culturally responsive education, supporting dual language learners, inclusive and engaging classroom and curricular design and assessment and documentation of young children's learning. This 120 credit hour track is ideal for students who currently and/or intend to work in community-based early childhood environments that serve children from infancy-age five years or as paraprofessionals. Courses include field-based experiences that can take place in settings where students currently work. Students fulfill the Colorado Department of Human Services Director Qualification requirements. The non-licensure track ensures that students can apply for one additional semester to fulfill licensure requirements. Students who elect to fulfill licensure requirements must pass the Praxis II in advance of this additional semester where they will be placed for an internship in an SEHD professional development school.

ACADEMIC ADVISING

The School of Education & Human Development (SEHD) requires all students to meet with their Academic Advisor several times a year to develop and learn more about their own individualized plan of study.
