

PROGRAM OVERVIEW

The special responsibility of historical studies is to help individuals and communities understand the past. History courses integrate many branches of knowledge, cutting across the lines of the social sciences and the humanities, and even the natural sciences. Identifying forces of stability and processes of change, history students develop research, writing and analytical skills, which serve them well beyond their university years.

By comparing the human conditions over decades or centuries, history students identify fundamental social trends and analyze critical causal factors. The study of history builds confidence for making judgments in many fields of human endeavor and provides insight into current social, political, economic and cultural issues. History is an all-inclusive discipline, making it an excellent choice for students with a wide variety of career goals. The Department of History trains students to be critical thinkers, capable researchers, and careful writers.

The secondary licensure program is a partnership program between the College of Liberal Arts and Sciences (CLAS) and the School of Education & Human Development (SEHD). Secondary Education Licensure students choose a major within CLAS and complete all CORE, CLAS, major, and initial teacher education admission requirements before completing a final professional year of licensure coursework through the SEHD.

ACADEMIC ADVISING

The College of Liberal Arts and Sciences (CLAS) supports students to graduation using a shared advising system. CLAS students have two academic advisors with whom they should meet regularly to discuss academic and degree progress: a CLAS Academic Advisor and a major advisor. Additionally, secondary education students work with an academic advisor in the School of Education & Human Development (SEHD) who support students through initial teacher education coursework, Professional (final) Year, and licensure requirements. SEHD secondary education students should meet regularly with the SEHD advisor.

SAMPLE ACADEMIC PLAN OF STUDY

The following academic plan is a *sample* pathway to completing degree requirements for this major. Students should tailor this plan based on previously completed college coursework (e.g., AP, IB, CLEP, dual/concurrent enrollment, and transfer credit), course availability, and individual preferences related to course load, schedules, or add-on programs such as certificates, minors, double-majors, or dual-degrees. Secondary education students are encouraged to meet with an SEHD advisor to create an individualized graduation plan.

Note: this sample academic plan assumes secondary education students have completed the CLAS Second Language proficiency requirement. Students who have not already completed the CLAS Second Language proficiency requirement must consult with their CLAS Advisor.
