

PROGRAM OVERVIEW

Understanding risk, how to manage it, and how risk management can be used to increase firm value is essential in the current business environment. An RMI degree will provide an overall perspective on risk with a specific focus on insurance products and their use in mitigating risk in business and personal situations. RMI coursework will prepare students for acquiring certification in their choice of insurance specialty.

ACADEMIC ADVISING

It is recommended that students meet with an advisor regarding their individualized degree plan at least once per year.
