

## PROGRAM OVERVIEW

The College of Liberal Arts and Sciences (CLAS) Integrated Studies Major (IGTS) provides students with the opportunity to construct an individualized Bachelor of Arts (B.A.) program that meets their unique interests and needs. This major provides students with maximum flexibility and multiple pathways through the curriculum to complete a degree through the combination of two course clusters. The Integrated Studies major prepares and challenges students to examine complex questions or issues from multiple and intersecting perspectives. This degree is also designed to help students integrate previously completed coursework to design a novel major. It is especially helpful for students who have switched majors, colleges or institutions, and are looking for a meaningful way to complete their degree.

## ACADEMIC ADVISING

The College of Liberal Arts and Sciences (CLAS) supports students to graduation using a shared advising system. CLAS students have two academic advisors with whom they should meet regularly to discuss academic and degree progress: a CLAS Academic Advisor and a major/faculty advisor.
