

PROGRAM OVERVIEW

Psychology is an extremely broad discipline. While consistently focused on the individual, it deals with everything from brain and neurological functions to social and environmental influences on behavior and thought. Here at CU Denver, our undergraduate program covers aspects of all the following: experimental psychology, biopsychology, animal behavior, developmental psychology, cognitive psychology, and abnormal psychology. As a foundation, the programs also include an early exposure to research methods and statistics. The psychology major is designed to help students achieve the following learning goals:

- **Knowledge Base of Psychology:** Students will recognize, explain, and distinguish the major concepts, theoretical perspectives, empirical findings, and historical trends in Psychology.
- **Research Methods in Psychology:** Students will demonstrate the statistical, organizational, writing, and analytical skills necessary to interpret and conduct meaningful and valid research in Psychology.
- **Critical Thinking Skills:** Students will use skeptical inquiry and scientific thinking skills to interpret and solve problems related to behavior and mental processes.
- **Application of Psychology:** Students will apply psychological principles to solve personal, social, and/or organizational problems.
- **Values in Psychology:** Students will evaluate evidence, tolerate ambiguity, act ethically, recognize and respect diversity, and/or reflect other values that are the underpinnings of psychology as a discipline.

The Department of Psychology strives to provide the highest quality, state-of-the-art educational experience for our undergraduate students. Our faculty members bring alive for students the subject matter and methodologies of psychology and prepare students to become sophisticated consumers and evaluators of information. Our students can collaborate with faculty on research projects at the intersection of psychology and neuroscience in areas such as drug abuse, stress, brain development, health and wellness, depression, and marital relationships—research that is often focused on problems of contemporary urban life. The Gardner Psychology Research Scholars Program consists of a rigorous set of criteria centered around a research project working with a Psychology faculty mentor.

ACADEMIC ADVISING

The College of Liberal Arts and Sciences (CLAS) supports students to graduation using a shared advising system. CLAS students have two academic advisors with whom they should meet regularly to discuss academic and degree progress: a CLAS Academic Advisor and a major/faculty advisor.

GENERAL GRADUATION REQUIREMENTS & POLICIES

All CU Denver CLAS students are required to complete the following minimum general graduation requirements to be eligible to apply for graduation:

1. Complete a minimum of 120 credit hours
2. Achieve a minimum 2.0 CU cumulative grade point average (GPA)
3. Complete a minimum of 45 upper-division (3000- to 4000-level) credit hours
4. Complete all CU Denver Core, CLAS, and major requirements
5. Complete a minimum of 30 CLAS credit hours with letter grades at CU Denver

*The following are **maximum** credit hours that can apply toward the minimum 120 credit hours required for graduation:*

- 16 credit hours Pass/Fail
- 12 credit hours of Independent Study/Directed Research
- 12 credit hours of internship credit
- 8 credit hours of physical education credit

PROGRAM REQUIREMENTS & POLICIES

Students are responsible for meeting with the major/faculty advisor in the department to confirm major requirements. In addition to completing all CU Denver Core and CLAS requirements, students completing the Psychology B.S. Degree are required to complete the following minimum program requirements:

1. Students must complete a total of 57 credit hours, including a minimum of 28 PSYC credit hours and 23 credit hours in ancillary course work.
2. Students must complete a minimum of 16 upper division (3000-level and above) credit hours in the major.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum of B (3.0) in the 3 Behavioral & Biomedical Sciences Research courses and must achieve a minimum cumulative major GPA of 2.5. All graded attempts in required and elective courses are calculated in the major GPA. Courses taken using pass/fail grading cannot apply to major requirements.
4. Students must complete a minimum of 16 upper division (3000-level and above) PSYC credit hours with CU Denver faculty.
5. An experiential learning component is required and must be approved by the Bachelor of Science academic advisor. To fulfill the experiential learning requirement a student must have a minimum overall GPA of 2.5 or higher. Fulfilling this requirement with a project outside of the Psychology Department requires prior approval by the Bachelor of Science academic advisor. Independent study or internship credit hours taken outside of the Psychology Department will not count as Psychology credit hours.
6. Students with transfer credit for PSYC 1005 that was awarded zero credit hours will need to take an additional three credit Psychology Elective course to reach the minimum credit hours required for the Psychology Major.
