Dear Mr. Huber:

This is in response to the transmission of Revision 2 of the Cost Accounting Standards Board (CASB) Disclosure Statement (DS-2) for the University of Colorado Denver. As the Administrative Contracting Officer (ACO), I am required to determine the adequacy and compliance of the DS-2. Based on the review performed by our office, I have determined that your DS-2 adequately discloses the cost accounting practices required to be disclosed by CASB's rules, regulations, and standards, and that those practices are compliant with applicable Federal cost accounting principles.

Should you have any questions, please contact Brian Caudill of my staff at (301) 492-4857.

Sincerely,

Arif Karim  
Director  
Division of Cost Allocation

**GENERAL INSTRUCTIONS**

1. This Disclosure Statement has been designed to meet the requirements of Public Law 100-679, and persons completing it are to describe the Educational institution and its cost accounting practices. For complete regulations, instructions and timing requirements concerning submission of the Disclosure Statement, refer to Section 9903.202 of Chapter 99 of Title 48 CFR (48 CFR 9903).
2. Part I of the Statement provides general information concerning each reporting unit (e.g., segments, business units, and central system or group (intermediate administration) offices). Parts II through VI pertain to the types of costs generally incurred by the segment or business unit directly performing under Federally sponsored agreements (e.g., contracts, grants and cooperative agreements). Part VII pertains to the types of costs that are generally incurred by a Central or Group office and are allocated to one or more segments performing under Federally sponsored agreements.
3. Each segment or business unit required to disclose its cost accounting practices should complete the Cover Sheet, the Certification, and Parts I through VI.
4. Each central or group office required to disclose its cost accounting practices for measuring, assigning and allocating its costs to segments performing under Federally sponsored agreements should complete the Cover Sheet, the Certification, Part I and Part VII of the Disclosure Statement. Where a central or group office incurs the types of cost covered by Parts IV, V and VI, and the cost amounts allocated to segments performing under Federally sponsored agreements are material, such office(s) should complete Parts IV, V, or VI for such material elements of cost. While a central or group office may have more than one reporting unit submitting Disclosure Statements, only one Statement needs to be submitted to cover the central or group office operations.
5. The Statement must be signed by an authorized signatory of the reporting unit.
6. The Disclosure Statement should be answered by marking the appropriate line or inserting the applicable letter code which describes the segment's (reporting unit's) cost accounting practices.
7. A number of questions in this Statement may need narrative answers requiring more space than is provided. In such instances, the reporting unit should use the attached continuation sheet provided. The continuation sheet may be reproduced locally as needed. The number of the question involved should be indicated and the same coding required to answer the questions in the Statement should be used in presenting the answer on the continuation sheet. Continuation sheets should be inserted at the end of the pertinent Part of the Statement. On each continuation sheet, the reporting unit should enter the next sequential page number for that Part and, on the last continuation sheet used, the words "End of Part" should be inserted after the last entry.
8. Where the cost accounting practice being disclosed is clearly set forth in the institution's existing written accounting policies and procedures, such documents may be cited on a continuation sheet and incorporated by reference to the pertinent Disclosure Statement Part. In such cases, the reporting unit should provide the date of issuance and effective date for each accounting policy and/or procedures document cited. Any supplementary comments needed to fully describe the cost accounting practice being disclosed should also be provided.
9. Disclosure Statements must be amended when disclosed practices are changed to comply with a new CAS or when practices are changed with or without agreement to the Government (Also see 48 CFR 9903.202-3).
10. Amendments shall be submitted to the same offices to which submission would have to be made were an original Disclosure Statement being filed.
11. Each amendment should be accompanied by an amended cover sheet (indicating revision number and effective date of the change) and a signed certification. For all re-submissions, on each page, insert "Revision Number \_\_\_\_ and "Effective Date \_\_\_\_" in the Item Description block, and, insert "Revised" under each Item Number amended. Resubmitted Disclosure Statements must be accompanied by similar notations identifying the items which have been changed.

**Treatment of Unallowable Costs**

Unallowable costs are excluded from direct and indirect charges to Federally sponsored agreements. Unallowable costs are classified as either unallowable activities or unallowable expenses. Unallowable activities, such as the Development Office, are classified as "Other Institutional Activities" and facilities and administrative costs are allocated to these activities as part of the normal facilities and administrative cost allocation process. The classification of unallowable activities as Other Institutional Activities is required by section B.1.d of Circular A-21. Unallowable expenses, e.g. alcohol, are excluded from all pools.

2.1.0	<p data-bbox="383 300 1382 359"> <b>Criteria for Determining how Costs are Charged to Federally Sponsored Agreements or Similar Cost Objectives</b> </p> <p data-bbox="383 365 1455 762">           The UCD follows the general guidelines in sections D. and E. of Circular A-21 in determining the treatment of costs as direct or indirect. Accordingly, costs that can be identified specifically with a particular sponsored project, instructional activity, or other institutional activity, or can be directly assigned to such activities relatively easily with a high degree of accuracy, are treated as direct costs. Conversely, costs incurred for common joint objectives that cannot be identified readily and specifically with a particular sponsored project, instructional activity or other institutional activity, are treated as facilities and administrative costs. The UCD's facilities and administrative costs are consistent with the definitions of specific facilities and administrative cost categories in section F. of Circular A-21. The UCD also follows the guidelines in section F.6.b. of Circular A-21 that specify the normal treatment of certain costs commonly incurred by academic departments and organized research units.         </p> <p data-bbox="383 810 1455 949">           Every effort is made to classify costs incurred for the same purpose, in like circumstances, consistently as either direct or facilities and administrative costs. The UCD fiscal policy "<u>Charges to Federally Sponsored Projects</u>" and related policy exhibits address this issue. Within academic departments and organized research units, major cost categories are treated as follows:         </p> <ul data-bbox="431 957 1455 1913" style="list-style-type: none"> <li data-bbox="431 957 1455 1062">• Salaries and fringe benefits of faculty, professional staff (e.g., research associates), technicians, lab assistants, and students associated with effort on research projects, instructional activities and other direct cost objectives, are treated as direct costs.</li> <li data-bbox="431 1071 1455 1209">• The costs of laboratory supplies (e.g., chemicals, glassware, etc.), instructional supplies, travel, consulting services, long distance telephone toll charges and the other items enumerated in 2.2.0 and 2.7.0 identifiable to research, instruction, or other direct cost objectives are treated as direct costs.</li> <li data-bbox="431 1218 1455 1545">• Repairs and maintenance involving internal building operations and equipment are identified by a work order system and are allocated to functions within that building based on total assignable square feet. Repairs and maintenance which are readily identifiable to research projects, instructional activities or other direct costs objectives are treated as direct costs and the direct charges are credited against the operations and maintenance (O&amp;M) cost pool. Rent paid for certain facilities that are in close proximity to the campuses are included the O&amp;M pool. Rent and other facility costs of off-campus facilities that can easily be identifiable to research projects are treated as direct costs and are excluded from the O&amp;M pool.</li> <li data-bbox="431 1554 1455 1913">• Salaries and fringe benefits of administrative and clerical staff and operating expenses (office supplies, postage, local (basic) telephone costs, and memberships) identified as administrative are normally treated as facilities and administrative costs. However, in accordance with supplementary guidance on this subject issued by OMB and according to UCD' fiscal policy "<u>Charges to Federally Sponsored Projects</u>" and related policy exhibits, details certain conditions may exist when it is appropriate to treat these costs as direct costs. Direct charging administrative costs may be appropriate if the expense meets <b><u>ALL</u></b> of the following conditions:             <ul style="list-style-type: none"> <li data-bbox="529 1850 1455 1913">▪ The cost is specified in the proposed budget of the sponsored agreement, and the special circumstances requiring direct charging are justified in the proposal.</li> </ul> </li> </ul>

2.6.0	<p><b>Description of Direct Fringe Benefit Costs</b></p> <p>The following fringe benefits attributable to organized research, instruction and other direct cost objectives are treated as direct costs.</p> <p>PERA – (Public Employees Retirement Association) - PERA is a mandatory retirement plan for all classified staff. Employee contribution is 8% and the University’s contribution is currently 10.15% (this may be adjusted annually). Active PERA members do not pay into FICA.</p> <p>FICA – Authorized by the Federal Government</p> <p>Medicare Tax – Authorized by the Federal Government</p> <p>Short Term Disability - The University of Colorado offers a university-paid STD benefit to eligible classified staff. STD coverage helps protect a portion of your income if you are disabled due to a covered illness, pregnancy, or injury. Enrollment is automatic.</p> <p>Long Term Disability – The University of Colorado offers a university-paid Long-Term Disability (LTD) benefit to eligible employees. Enrollment is automatic for faculty and professional exempt.</p> <p>Health, Life and Dental Insurance – An employer contribution is provided to employees appointed to a benefit eligible positions who may enroll in one of the university’s group benefits plans. A wide choice in plans and coverage levels allows employees select the medical, dental, &amp; life insurance that best meets their needs.</p> <p>Defined Contribution Retirement Plan 401A (TIAA, Vanguard, Fidelity, etc.) The University of Colorado offers a qualified defined contribution plan under section 401(a) of the Internal Revenue Code. Enrollment is mandatory for eligible employees (faculty and exempt employees). An employee will contribute 5% and the university will contribute 10% of gross earnings to be distributed according to investment selections.</p> <p>Workers Compensation –UCD cost study based on an amount that is actuarially calculated annually by the University Risk Management Office (URM). This premium is assessed to the campus annually and is paid on a monthly basis. Premiums from all campuses are used to finance the System Risk Management Liability for Worker's Compensation Claims.</p> <p>Unemployment Compensation - UCD cost study based on the amount paid out for unemployment insurance claims for eligible employees. An outside vendor and the campus Human Resources office manage this program.</p> <p>Retirement Benefits - UCD cost study of the actual cost of retiree health, life and dental insurance. Most retirees are eligible for employer contribution toward health, life and dental insurance although at varying amounts based on age and years of service.</p> <p>Termination Pay – UCD cost study based on the amount paid out for unused vacation and sick leave for separating and retiring employees.</p> <p>Payments for vacation, holiday and sick leave are included in the charges for monthly salaries or as part of termination pay in accordance with UCD and State of Colorado Personnel Rules. See UCD fiscal policy titled, “<u>Employee Fringe Benefit Pools</u>” at:  <a href="http://www.ucdenver.edu/faculty_staff/employees/policies/Policies%20Library/HR/fp5-06.pdf">http://www.ucdenver.edu/faculty_staff/employees/policies/Policies%20Library/HR/fp5-06.pdf</a></p>

2.6.1 Revised	<p><b>Method of Charging Direct Fringe Benefits</b></p> <p>Most of the benefits listed in 2.6.0 are identified to an individual employee and charged to a specific program/project or programs/projects. If an employee is paid from one general ledger program/project, all of the benefits are charged to that program/project. If an employee is paid from more than one program/project, the benefits are charged to those programs/projects in proportion to the salary paid from each program/project.</p> <p>Workers Compensation, Unemployment Compensation, Retiree Benefits and Termination Pay are charged direct via a percentage rate that is applied to applicable salaries and wages in accordance with UCD fiscal policy titled "<u>Employee Fringe Benefit Pools</u>". These rates are calculated prior to the beginning of each fiscal year and are adjusted by any over or under-recovery from the previous year.</p> <p>Each program/project is assigned a function code when the program/project is created. The function codes (Instruction, Research, Patient Care, etc.) are summarized at fiscal year end for reporting purposes.</p> <p>When preparing budgets for grant applications or contract proposals, benefits are estimated for each class of employee who is to be paid from the grant or contract.</p>

3.1.0 Revised	<p style="text-align: center;"><b>Indirect Cost Categories - Accumulation and Allocation</b></p> <p style="text-align: center;"><b>Accumulation Method</b></p> <p>(a) Capital improvements to land - are accumulated in the G/L and tracked in the asset tracking system - PSAM. They are allocated to functions based on FTE student and employee data.</p> <p>Interest - Interest expense is interest on debt associated with building, equipment and capital improvements as defined in paragraph J.22 of A-21. Interest expense recorded in the G/L and identified to the building that was constructed with the borrowed funds. It is allocated based on the function of assignable square feet.</p> <p>(b) Operations and Maintenance            The Anschutz Medical Campus was moved from the 9<sup>th</sup> Avenue and Colorado Boulevard in Denver to a new site at the former Fitzsimons Army Medical Garrison in Aurora. Certain costs are directly identified to each campus and some costs are shared. Where the costs are shared, they are allocated between the two campuses, the Anschutz Medical Campus and Denver Campus, based on the usable net assignable square feet at each site.</p> <p>Maintenance and Repairs – Expenditures are identified by building in the UCD general ledger and are then allocated to functions within that building based on total assignable square feet identified to each function.</p> <p>Operations and Maintenance Administration - The allocation methodology consists of allocating these expenditures to each building based on total assignable square feet per building and then allocating to functions based on total assignable square feet identified to each function.</p> <p>Grounds Maintenance, University Police, Materials Management, Insurance, Property Control, Space Management - The allocation methodology consists of allocating these expenditures to each building based on total assignable square feet served per building. The expenditures are then allocated to functions within each building based on the assignable square feet for each function.</p> <p>Environmental (Custodial) Services – Some of the environmental expenditures are identified to specific buildings in the general ledger system. Other environmental expenditures are allocated to buildings based on total assignable square feet served per building. The expenditures are then allocated to functions within each building based on the assignable square feet for each function.</p> <p>Environmental Health and Safety - The allocation method for Environmental Health and Safety is based on a specific identification basis for each departmental activity. These activities include Radiation Safety, Hazardous Waste, Biological Safety/Infectious Waste, Occupational Health/Bio-Safety, and Administration. Each activity is quantified and allocated to campus functions based on statistics derived from department records.</p> <p>Utilities - Some of the utility expenditures are identified to specific buildings (if separately metered) in the general ledger system. Other energy expenditures are allocated to buildings based on total assignable square feet served per building. The expenditures are then allocated to functions within each building based on the assignable square feet for each function.</p>

3.1.0 Revised	<p>(c) General Administration Costs- - Almost all of the General Administration costs are identified in the institution's general ledger system. This cost pool also includes amounts allocated to the UCD from the State of Colorado Statewide Cost Allocation Plan, the Colorado Commission on Higher Education Cost Allocation Plan and the UCD's share of University of Colorado System Administration costs.</p> <p>(d) Departmental Administration Costs- Departmental Administration expenditures are partially identified from the institution's general ledger system by program/project and type of expenditure. In addition, a direct charge equivalent is calculated and the amounts are accumulated by department. These identified amounts are re-classified from the Instruction cost pool. Administrative activities of faculty and academic professional staff are covered by the 3.6% allowance provided by A-21.</p> <p>(f) Library</p> <p>Library costs of the Health Sciences Library and the Auraria Library are allocated based on the default process allowed by A-21. The total pool is split among students, faculties and professional employees, and other users based on FTE with the student portion allocated to Instruction. The balance of the pool is allocated to the four primary functions (i.e. Instruction, Organized Research, Other Sponsored Activity, and Other Institutional Activity) based on salary data. The appropriate portion of other users is allocated to Other Institutional Activity.</p> <p>The Auraria Library is shared between the three institutions that make up the Auraria Campus: Community College of Denver (CCD), Metropolitan State University of Denver (MSUD) and the Denver Campus. All operating expense related to the Auraria Library are accumulated in the G/L. CCD and MSUD reimburse UCD for their use of the Auraria Library. For F&amp;A purpose, the revenue from CCD and MSUD offsets the expense and proportionally reduces the Auraria Library spaces.</p> <p>(g) Student Administration and Services – Student Administration and Services costs are allocated entirely to the Instruction function.</p> <p>(h) Other - Auraria Higher Education Center (AHEC) – The Denver Campus is one of three institutions that share the facilities owned by the AHEC. The Denver Campus pays rent on their share of the campus based on an annual fee from the AHEC. All facilities costs associated with the AHEC are included in the rent. The costs of this rent are allocated to direct and indirect cost pools based on the function of assignable square feet of the facilities used by UCD.</p>
