CLINICAL EXPERIENCE AND EMPLOYMENT

August 2017-present MARCUS INSTITUTE FOR BRAIN HEALTH, University of Colorado School of
Medicine

**Assistant Professor, Department of Physical Medicine and Rehabilitation
Lead Psychologist/Clinical Neuropsychologist.** Responsible for the neuropsychological assessment and intervention with patients with mild traumatic brain injury and comorbid psychological and medical diagnoses. Serve as a rehabilitation psychologist on the MIBH interprofessional rehabilitation team. Oversee and manage training program for trainees from accredited doctoral psychology training programs.

2010-July 2017 DENVER VETERANS AFFAIRS MEDICAL CENTER, Denver, CO.

Doctoral Internship Training Director. Responsible for the overseeing and managing the APA accredited training doctoral psychology training program. Responsibilities include communication with APA (re: accreditation, self-study and site visit), working with and leading the Training Committee, personally overseeing the training goals of interns and ensuring that they meet competency in all training areas, and overseeing training faculty as they provide clinical supervision and didactic training to interns. Have successfully completed a self-study and site visit reaccreditation process and our training site is currently accredited until 2019. Also under my direction, our training program has added two additional training slots, one focusing in on Primary Care-Mental Health Integration and the other focusing on geropsychology. This brings the total number of interns to five.

1999-2017 DENVER VETERANS AFFAIRS MEDICAL CENTER, Denver, CO.

Lead Neuropsychologist. Responsible for all outpatient and some inpatient neuropsychological assessment. Assess mainly for deficits secondary to tumor, stroke, anoxia, substance abuse, or dementia. Differential diagnoses often include psychiatric components. Have been responsible for Compensation and Pension evaluations for veterans who have a psychological or neuropsychological component to their claim. Responsible for managing patient access and

consult completion rates for neuropsychology service. Also participate in training activities including: 1) Coordinating and supervising the neuropsychological rotations for practicum students and pre-doctoral Interns, 2) Lecturing in the Neuropsychology and Behavioral Medicine Seminar, 3) Co-leading Diversity Seminar, and 4) Supervising pre-doctoral practicum students.

Primary Supervisor: Michael Craine, Ph.D.

2009-present *UNIVERSITY OF COLORADO SCHOOL OF MEDICINE*, Denver CO
Clinical Instructor, Departments of Psychiatry and Neurology. Conduct collaborative research and provide education to medical students, residents and fellows.

1998-1999 *DENVER VETERANS AFFAIRS MEDICAL CENTER*, Denver, CO.
Psychology Resident. Completed two four-month rotations in Neuropsychology and Inpatient Rehabilitation Psychology. Completed Inpatient Psychiatry rotation. Consulted with interdisciplinary teams in diagnostic and treatment planning issues. Administered cognitive, neuropsychological and personality assessment instruments, scored and interpreted results, and wrote reports. Served as a therapist to individuals and families, facilitating coping and adjustment. Responsibilities also included long-term psychotherapy and case management. Also, participated in a number of seminars including year-long seminars in Neuropsychology and Psychological Assessment.

Four hours of individual supervision and five hours of didactic training per week.

Hours at Internship: 40 per week.

Primary Supervisors: Donald Taylor, Ph.D., and Lisa Brenner, Ph.D.

VOLUNTEER AND COMMUNITY SERVICE

2013-present *COLORADO TRAUMATIC BRAIN INJURY TRUST FUND, Board of Directors*

2016-present *Chair, TBI Trust Fund Board*

Currently both chair of the Board and chair of the Research and Program Evaluation subcommittee. Devised program evaluation processes for Brain Injury Program fund grantees. Reviewed clinical research grant application letters of intent (LOI). Reviewed and ranked education grant applications. Support and guidance in evaluating Brain Injury Program processes and planning for future directions.
