

Step 1:

Go to “www.chaosgroup.com”

Step 2:

Under “Products” select the version of V-Ray that you need.

Step 3:

Select “Try Free”.

Step 4:

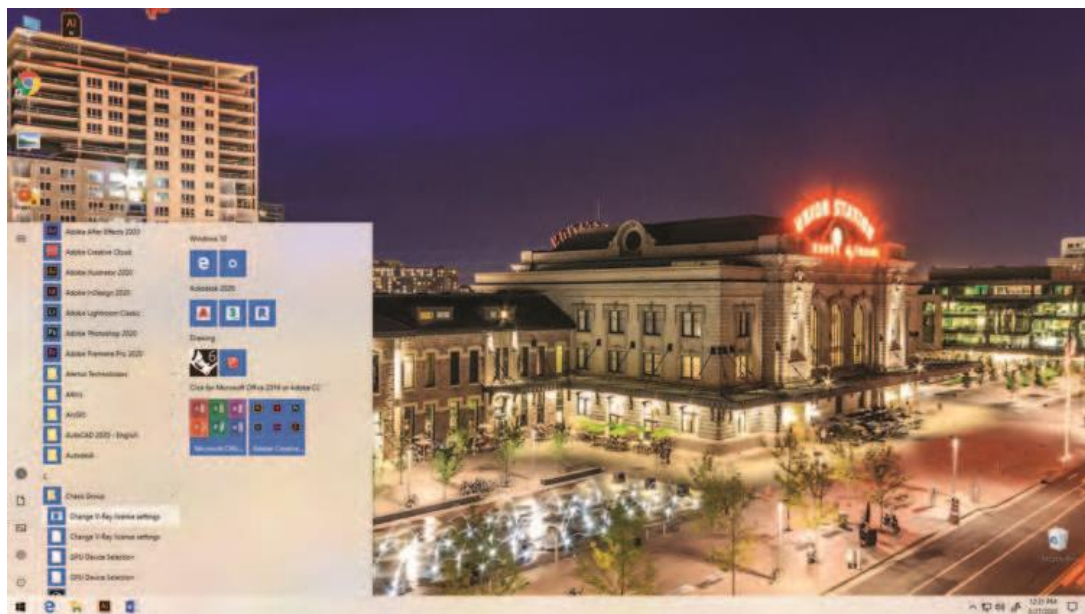

Sign in to, or create, your Chaos Group account.

Step 5:

Download the trial version, including the “License Server Manager”.

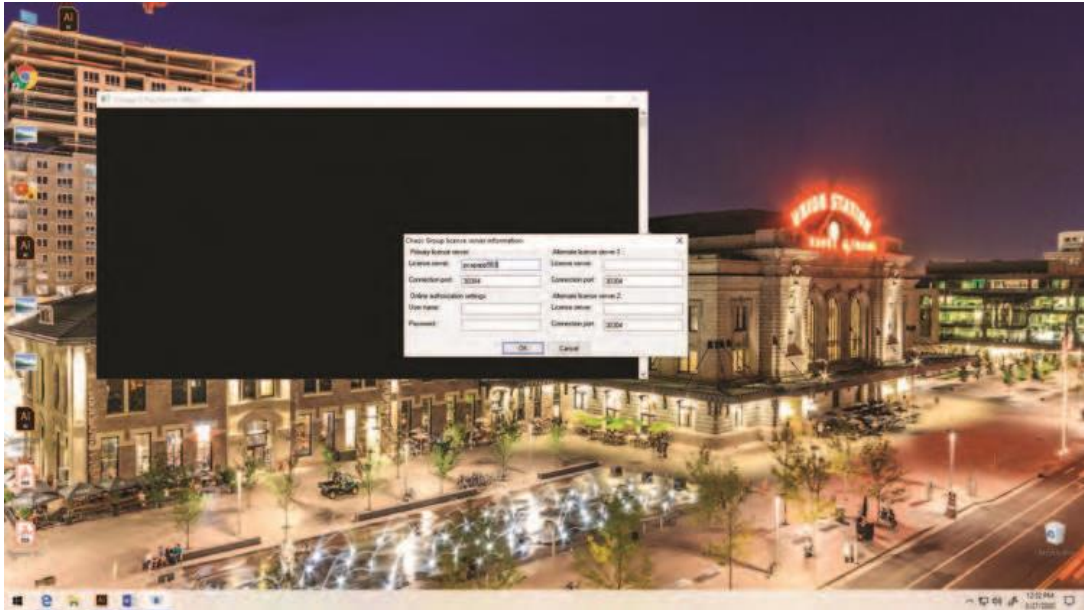

Step 6:

Find the “Chaos Group” Folder in your installed programs.

Step 7:

In the “Chaos Group” folder, select “Change V-Ray License Settings”.

Step 8:

Please connect with GlobalProtect VPN before changing the license server.

Under “Primary License Server”, change the “License Server” to “cap.ucdenver.pvt”.

Subsequent uses of v-Ray does require a VPN connection but no changes to settings.
