

MEMORANDUM

To: Kathleen Bollard, PhD
Vice President for Academic Affairs

From: Terry Potter, PhD
Associate Vice Chancellor for Academic Planning

Date: September 13, 2013

Re: Annual Report – Academic Program Review 2012-2013

Here is the annual Program Review report, including required attachments, and the list of New Degree Programs for the University of Colorado Denver | Anschutz Medical Campus.

Introduction

This annual report on Academic Program Review provides detailed information on the University's program review processes mandated by the Administrative Policy Statement 1019 "*Implementation of Regent Policy on Program Review.*" The policy requires the following items in an annual status report:

- **Program Reviews** – Programs scheduled for review are listed and the completed reviews are attached;
- **Progress Reports** – Progress reports are required for departments/schools whose reviews were submitted within the past three years; and,
- **Program Review Schedule** – The schedule identifies the programs to be reviewed in 2013-2014 and an updated list through 2019-2020.

The attached program review materials attest that the University conducts thorough and meaningful academic program reviews in a timely manner and that the reviews are used for future planning through the development and monitoring of action plans.

Policy Implementation

This was the fourth year the University of Colorado Denver | Anschutz Medical Campus operated under its new program review policy. The program review process continues to work well, although we continue to make minor adjustments and improvements as needed. The members of the Program Review Panel worked hard and have not only contributed to the final reports but also learned more about our University that will benefit them in their

home departments, as well as facilitate communication and collaboration across the University. We remain committed to the program review process which seeks to strengthen the University's educational, research, and service activities.

Program Review Reports 2012-2013

Colorado School of Public Health

 Biostatistics and Informatics – attached

 Epidemiology – attached

Graduate School

 Clinical Science PhD and MSCS – attached

School of Education and Human Development – attached

School of Medicine

 Biochemistry and Molecular Genetics – attached

 Family Medicine – attached

 Otolaryngology – attached

 Pharmacology – attached

Health Sciences Library – attached

Progress Reports 2013

Departments and units that are reviewed formulate action plans and are required to submit progress reports for the next three years following the review. Copies of the progress reports for the following are attached, unless noted otherwise.

College of Nursing

Graduate School

 Neuroscience PhD

School of Dental Medicine

School of Medicine

 Anesthesiology

 Cell and Developmental Biology

 Dermatology

 Immunology

 Neurology

 Obstetrics and Gynecology

 Ophthalmology

 Pathology

 Physical Medicine and Rehabilitation

 Psychiatry

 Radiation Oncology

 Radiology

School of Public Affairs
Skaggs School of Pharmacy
Auraria Library

Colorado AHEC System – There is currently no faculty appointed who is able to complete a progress report at this time. AHEC has requested a one-year extension.

Program Review Schedule for 2013-2014

The Schedule of Program Reviews includes a complete listing of upcoming reviews for all programs, including those being reviewed in 2013-2014. Most of the University's centers, institutes, and graduate programs are reviewed as part of the review of their "home" unit or as a formal grant renewal review, however some of these programs undergo independent review. In 2009 we added interdisciplinary graduate programs and a number of centers that span traditional departmental or organizational lines to the program review schedule. By adding independent reviews for those programs that span across organizations, we have a more thorough assessment of all of the University's academic endeavors.

Programs scheduled for review in 2013-2014 are as follows:

- College of Arts and Media
- College of Engineering and Applied Science
- Anthropology (College of Liberal Arts and Sciences)
- Economics (College of Liberal Arts and Sciences)
- Ethnic Studies (College of Liberal Arts and Sciences)
- Health and Behavioral Sciences (College of Liberal Arts and Sciences)
- Community and Behavioral Health (Colorado School of Public Health)
- Cell Biology, Stem Cells, and Development PhD (Graduate School)
- Computational Bioscience PhD (Graduate School)
- Human Medical Genetics PhD (Graduate School)
- Medicine (School of Medicine)
- Orthopedics (School of Medicine)
- Pediatrics (School of Medicine)
- Center for American Indian Alaska Native Health (CAIANH)
- Center for Public Health Practice
