

Teaching a Large Enrollment Course?

In the email sent to you directly from Navigate, there will be a personal link at the bottom. You are able to forward that link to your Teaching Assistant(s).

You can send this link to your TAs with the following instructions:

1. Follow the link.
2. Find your section.
3. Mark the students with appropriate referral reason(s).
4. Once the necessary students are marked, please click the first button that says:

Submit only marked students (but I'm not done)

Please note: It is important that once they mark the students, they ONLY click on the button that says, **“Submit only marked students (but I'm not done)”. This is what allows other TAs to mark their students in their section.

If anyone has questions, they can email us at student.success@ucdenver.edu
