

Order of Operations to Create/Modify a Course

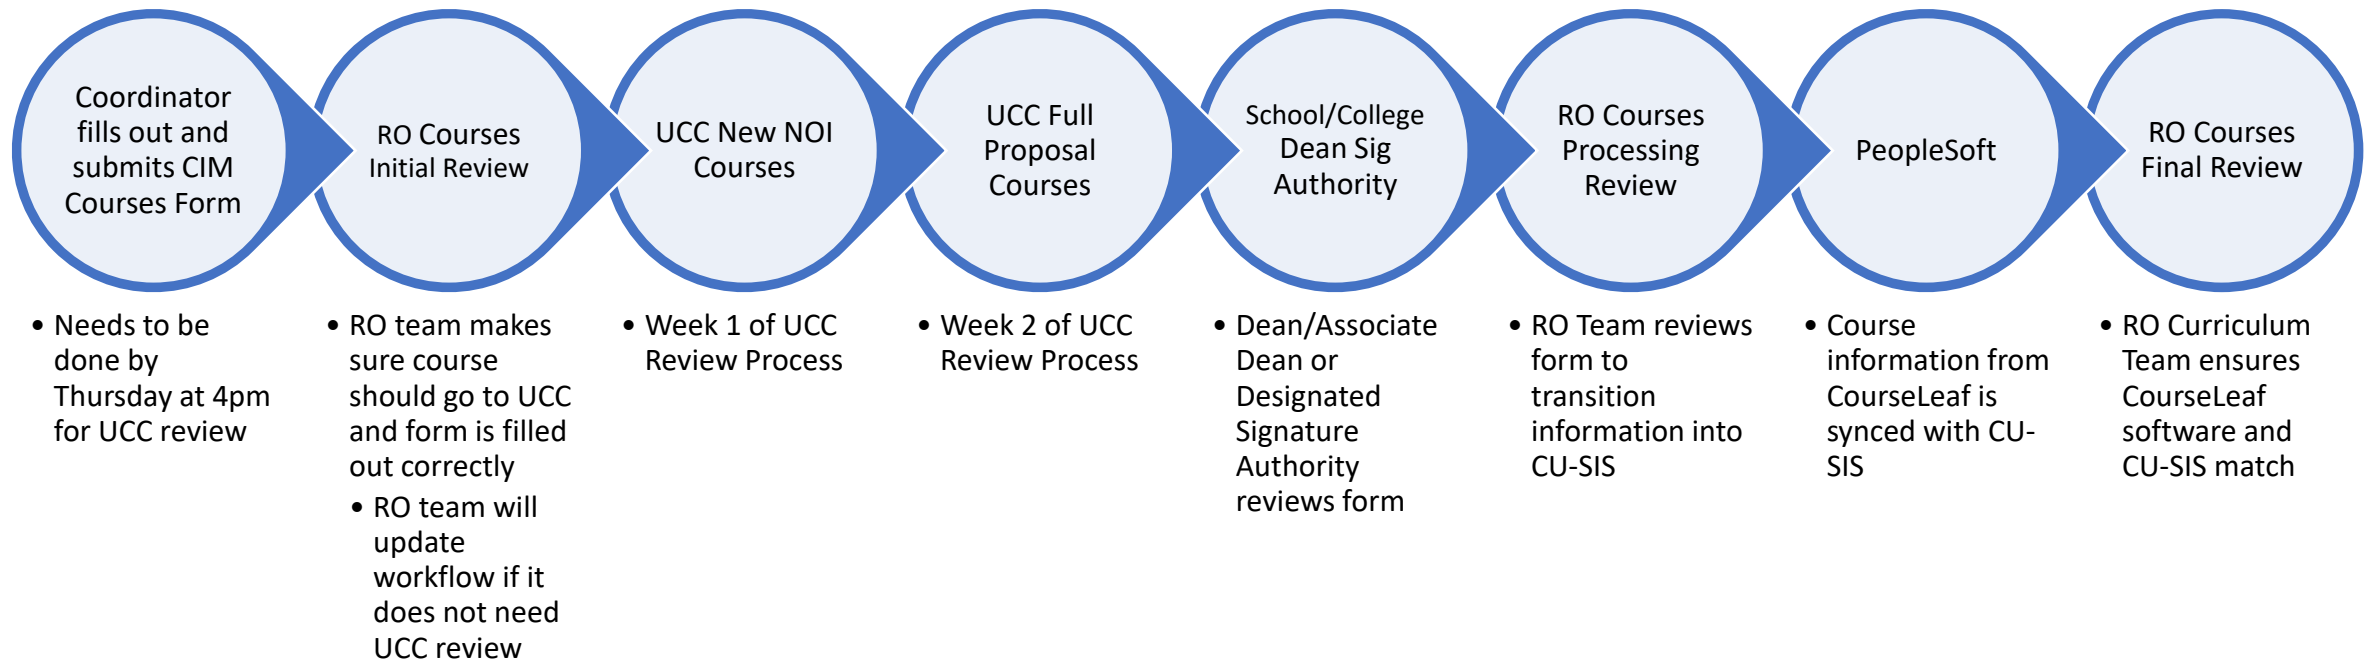

Course Level Changes that COULD have an impact on other Schools/Colleges and need UCC review

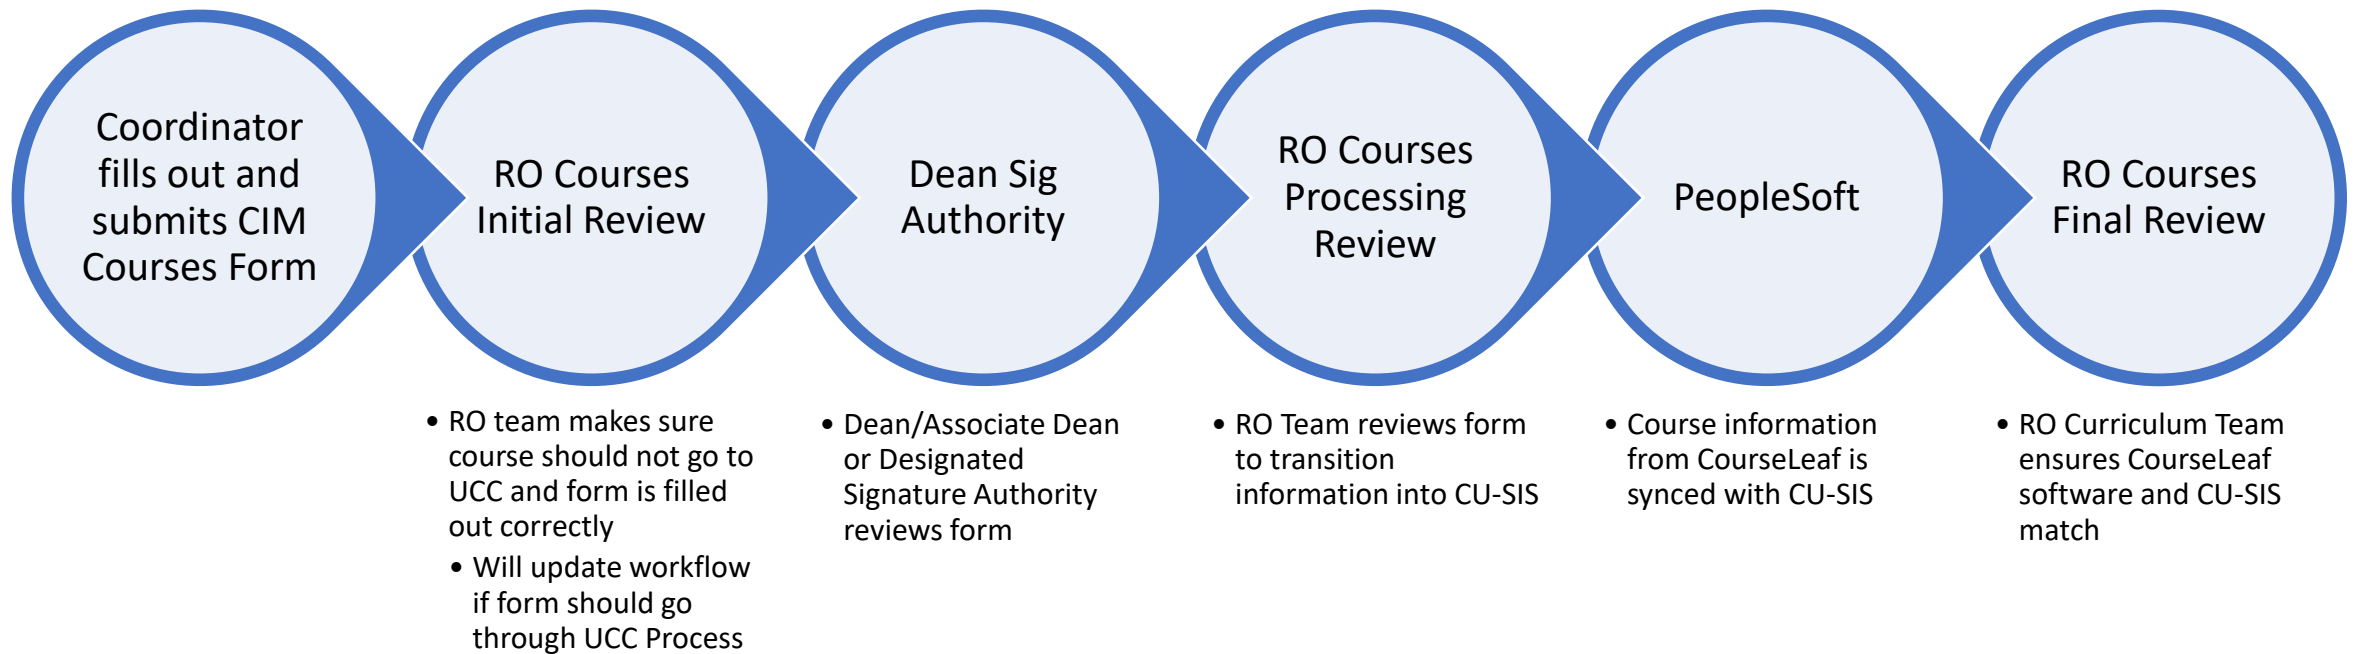

Course Level Changes that should not have an impact on other Schools/Colleges and do not need UCC Review

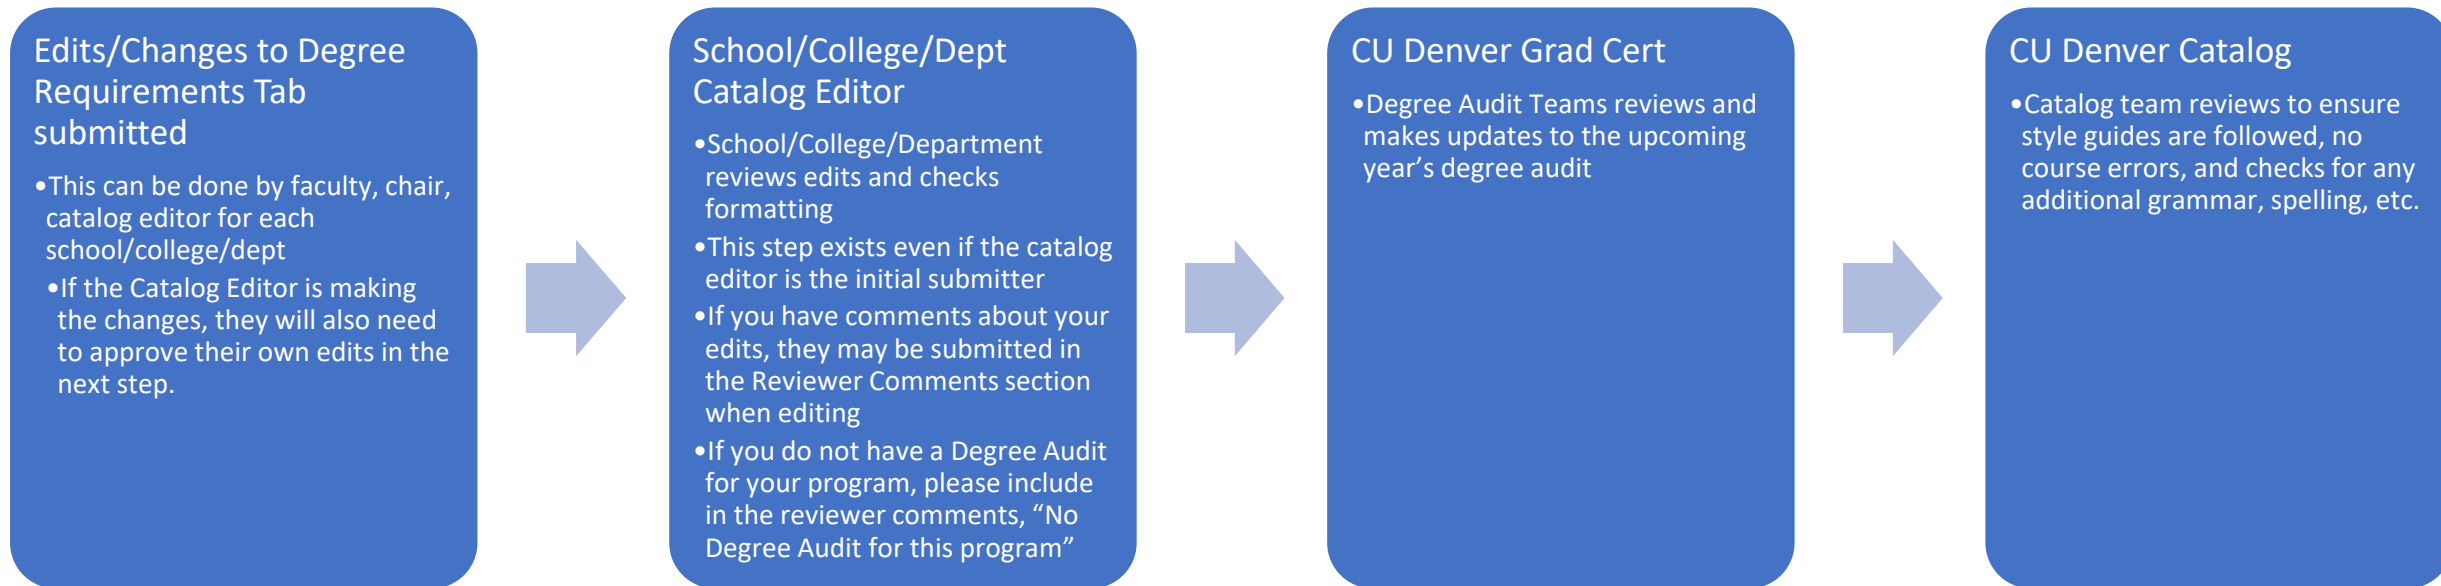

UCC Workflow Steps for CIM Courses

Non-UCC Workflow Steps for CIM Courses

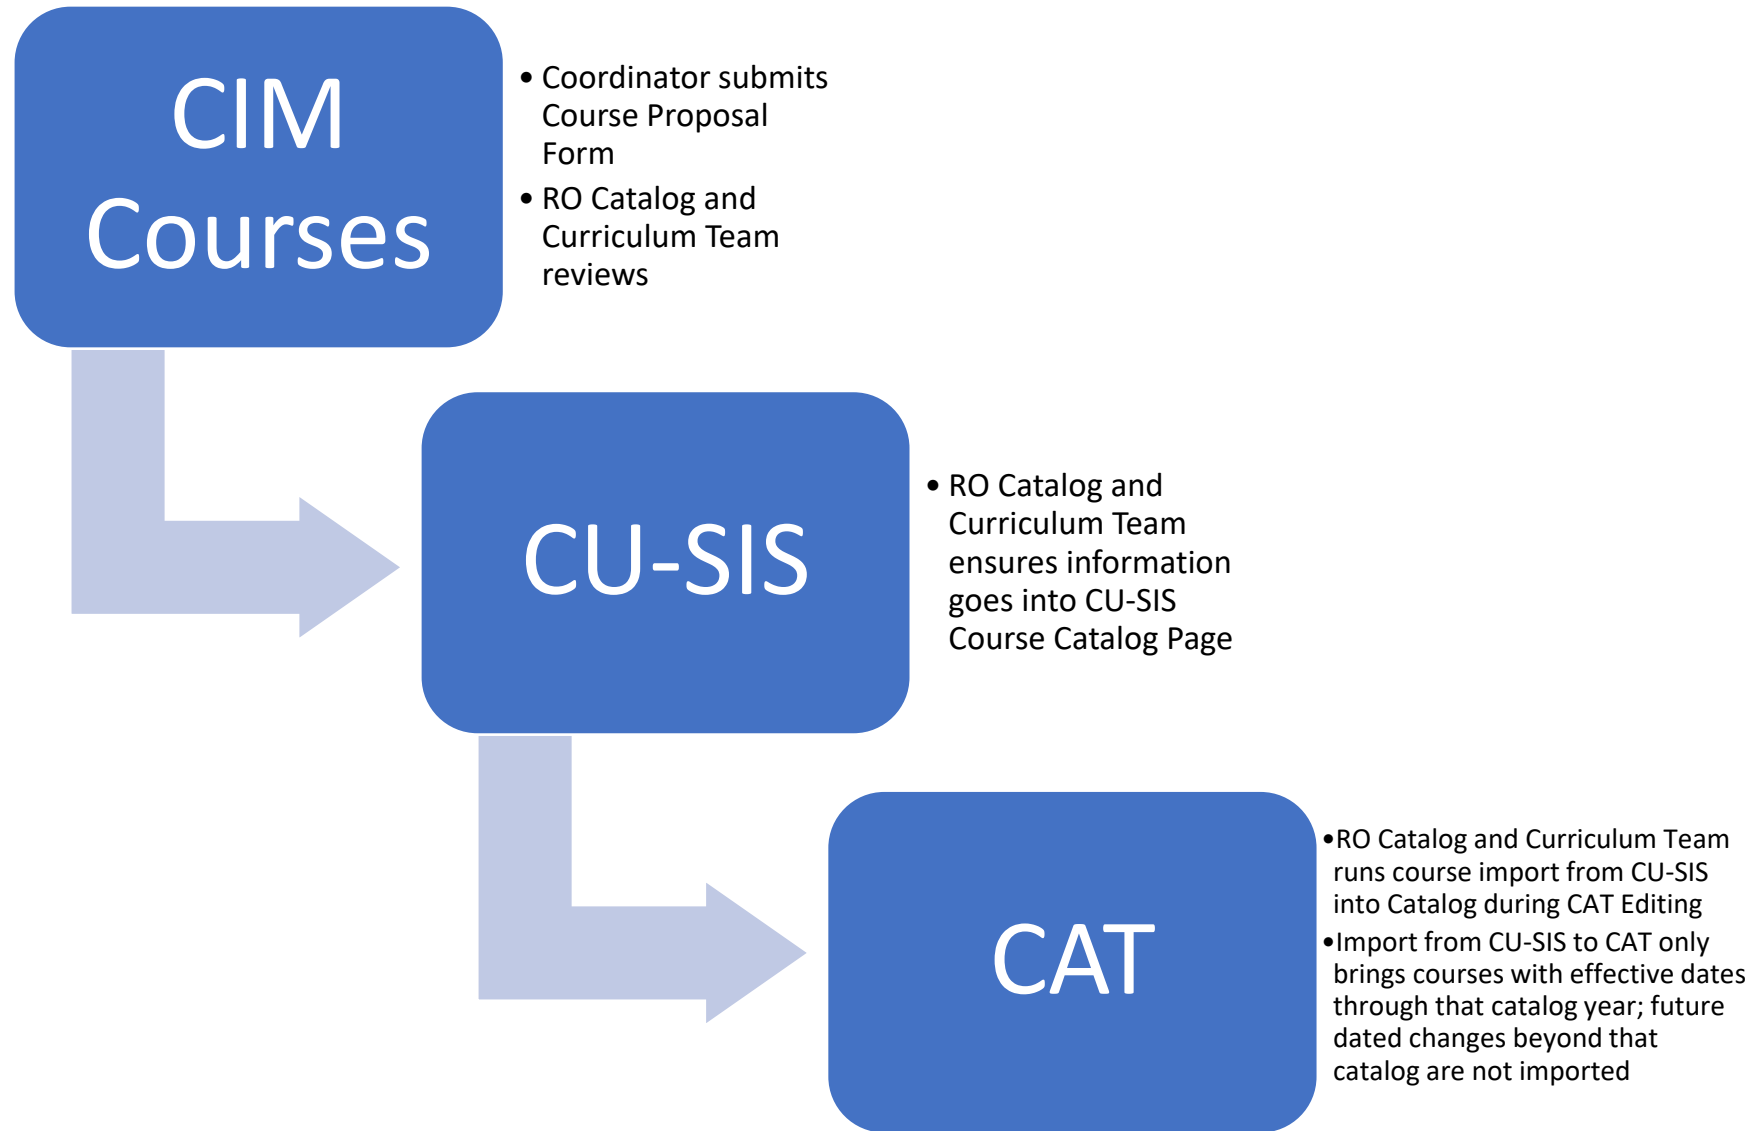

CIM Programs Edit Workflow Steps (used to edit Degree Requirements in CAT)

- CIM Programs- <https://nextcatalog.ucdenver.edu/programadmin/>
- Search for your program you need to edit in the Search Box
- Click Edit Program
- If a program is already in the workflow, you will not be able to make edits (unless it is in your step); email catalog@ucdenver.edu if you need a page rolled back.

Relationship between CIM Courses, CU-SIS, and CAT

CIM and CAT Parallel Processes (1 of 2)

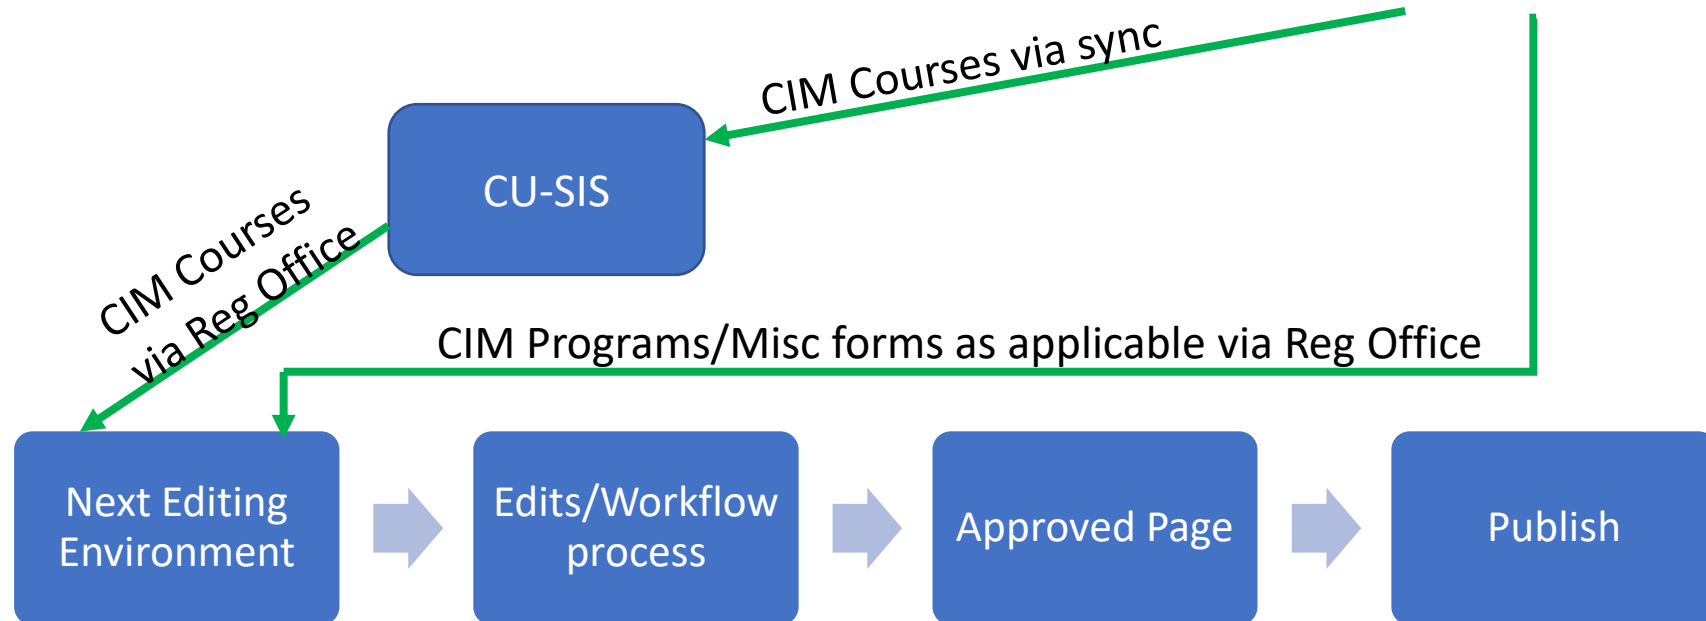

CIM Processes

- On-going
- Updates/Changes will show in CIM at all times

CAT Processes

- Only open during editing period

CIM and CAT Parallel Processes (2 of 2)

- CIM and CAT have separate workflows and processes
- CIM workflows for new submissions, updates, and edits are made independently of catalog editing
 - Faculty and staff submit their forms
 - Registrar's Office will verify the effective catalog edition and effective term
- CIM information only goes into CAT when the Registrar's Office imports the information
