This data element is normally available only for in-state students. Some out-of-state students, however, may have Colorado permanent addresses, and in those cases, report the appropriate county code when possible. Otherwise use the out of state or out of country code as appropriate. Can be determined from the zip code of student's permanent address, if not able to be determined directly. When reporting UAF, county required for students with registration status of first-time freshmen or transfer and admission status of applicant, accepted, or assessed/enrolled (see matrix below).

Code reported in the Enrollment File identifies the Colorado county in which a student resided during the first term and will be used to identify county in which a student resided for the first enrolled term after admission to the institution for first time freshmen and transfer students when not available in UAF.
