Welcome to CU Denver, and to the next four very exciting years of your life!

Your college years provide immense opportunity for self-exploration, intellectual discovery, relationship-building, and career foundations. We encourage you to seize these opportunities and to craft a path that speaks to you and the person that you want to become.

While this is incredibly exciting, it may also be a little overwhelming. Don’t worry - we’ve got your back! First-Year Experience (FYE) courses are designed to ease your transition to university life and guide you into this world of social, academic, and professional possibilities. We have an amazing network of dedicated faculty, supportive staff, and enthusiastic peer leaders that are 100% committed to your success.

As you explore the following pages, our advising teams look forward to working with you to select the best FYE option for your schedule, needs, and interests. Whether you choose a unique First-Year Seminar course, a weekly College Success class, or a two-course Learning Community, all FYE programs provide built-in opportunities for your path to graduation and beyond.

Best wishes on your journey!

Christy Heaton, PhD
Assistant Vice Chancellor, Student Transitions and Family Engagement

INFORMATION

COLLEGE SUCCESS (UNIV 1110)
The name says it all! This course is designed to ease your transition to CU and make your first semester the best it can be. Join 19 of your soon-to-be BFFs and share this new adventure together!

FIRST-YEAR SEMINAR (FYS)
FYS courses have it all - the best faculty, interesting topics, fun events, and the support of the whole campus. Each FYS course is a unique, once-in-a-lifetime opportunity - only available your first semester! Don’t miss out. Study cool things with cool people. You know you want to.

LEARNING COMMUNITIES (LC)
Learning Communities are double the fun! Our LCs include two courses that are linked together (gotta sign up for both!). The professors tag team to deliver a class experience that goes beyond the classroom with interdisciplinary themes, shared assignments, and a fun field trip. But the best part of all is the bond with your classmates from spending all that quality time together.

THE BENEFITS

Retention
Historically over time, FYE students have retained at a higher rate compared to non-FYE students at CU Denver

GPA
FYE students have a higher first-semester GPA compared to their non-FYE peers

Mentorship and Support
FYE students rate their professors and PALs highly in terms of mentorship and support during their first semester
WHY WE LOVE IT

FORMER FYE STUDENT

Working with my PAL (peer mentor) gave me someone to talk to that was, in theory, less intimidating.

FORMER FYE STUDENT

My first semester was impacted positively from my professor due to her attentiveness to each student and engagement both inside and outside of the classroom. Without her, forming relationships with any professors would have seemed too daunting a challenge, and my first semester would have been a much harder transition without this class and her care for us and our experience.

FORMER FYE STUDENT

My FYE professor helped me transition academically to the campus and helped me with resource knowledge around campus.

I feel comfortable, and now I feel like I know my way around.

FORMER FYE STUDENT

First-year students should take FYE courses to help adjust to their new college experience in a more efficient manner.

FORMER FYE STUDENT

FYE courses are a great place to meet other first-year students while getting to learn more about your new campus.

FYE INSTRUCTOR

I teach in the FYE Program because I love working with first-year students! I thrive off the energy and enthusiasm our new students bring into the classroom! Additionally, as an alumna of CU Denver, I also see my involvement in FYE as a way to give back to the institution that has presented me with so many wonderful opportunities and has catalyzed SO MUCH of my personal and professional growth.
College Success is our university boot camp, though a lot more fun. Learn about what it takes to succeed in college and how to make the right choices to get you there.

Here's how we do it:

1. **Polish your skills**
   Practice strategies for success! We’ll fine-tune the essentials - writing, critical thinking, and research - and work on college survival skills like time and stress management.

2. **Get connected; be supported**
   This is your home base to explore the campus and discover all that CU has to offer. You’ll also learn from the experts all over campus, including the Writing Center, Auraria Library, Learning Resource Center, Lynx Center, Career Center, and more!

3. **Be the best you**
   College isn’t all about learning stuff - it’s also a lot of learning about YOU. We’ll work on self-exploration so you can discover your interests, leverage your strengths, define your path, and achieve your goals.

4. **Discover community**
   CU Denver is immensely diverse and, hence, immensely awesome. You will learn to appreciate the diversity of people and perspectives that make CU Denver truly special, and your place within it all.

FIRST-YEAR SEMINARS

9:30 - 10:45 AM

COMM 1111-001 // What Are You Really Saying? The Power of Non-verbal Communication
Core Area: Behavioral Sciences // Professor: Yvette Olson
We will analyze significant research concerning non-verbal signals such as clothing and appearance to elements of body, face, and eye movements using observation activities. Particular emphasis will be placed on engagement and distress signals applicable to the world of business and mental health.

12:30 - 1:45 PM

ETST 1111-002 // American Indian Experiences
Core Area: Social Sciences // Professor: Duane Bird Bear
This course examines tribal identities and the cultural retention of American Indian traditions. Course readings by American Indian scholars examine a wide range of terms and theories regarding myths about American Indian cultures and history that have misinformed multiple generations. The course emphasizes how these ideas, roles and relationships evolved and are rooted in the fears and prejudice of European settlers and in the larger political agendas aimed at acquiring Indigenous land and creating the impression of cultural erasure and disappearance.

This course is open to both incoming Fall 2022 first-year and transfer students.

2:00 - 3:15 PM

INTB 1111-001 // International Social Entrepreneurship
Core Area: International Perspectives // Professor: Jon Wilkerson
The end of the 20th Century saw the rise of a powerful new force: the International Social Entrepreneur. Leveraging the power of market forces, social media, the Internet, and the desire to make the world better, these people have developed powerful ways to tackle the social, economic, and environmental problems that confront us all. In this class, we will study the rise of international social entrepreneurship and the innovative tools international social entrepreneurs have developed to address some of our most dire challenges.
FITV 1111-001 // Anime Goes To College: Analyzing Anime Characters Through a Sociological Lens

Core Area: International Perspectives // Professor: Emilie Waggoner

This is a first-year experiences (FYE) seminar designed to help students understand, and appreciate, and analyze character development in Japanese anime. Japanese manga and anime has quickly risen in the United States as a popular storytelling format, with many large companies like Netflix and Hulu beginning to release anime titles on their streaming platforms. The purpose of this course is to provide a history to Japanese anime while focusing on character stereotypes, identities, and development in a variety of popular anime shows, and how that connects to student development theories.

This course is open to both incoming Fall 2022 first-year and transfer students.
HUMN 1111-001 // From Blade Runner to The Handmaid’s Tale: How Science Fiction Cinema Helps Us Understand the Human Condition

Core Area: Humanities // Professor: Karin Hunter

Science fiction (SF) asks, “what if?” It asks us to imagine a world where anything is possible. Science fiction engages us in significant philosophical discussions; it asks theoretical and metaphysical questions on a large scale: what does it mean to be human? What’s our place in the universe? Do we matter? Rarely does mainstream media challenge us to consider these types of questions. Further, SF functions as a commentary on the present-day environments. This course will study important historical and recent SF film and television; we’ll aim to understand what type of social, political, and cultural commentaries were being made, and why it is important to examine those critiques. We’ll ask questions of ourselves about our humanity and what makes us human, and we’ll engage with various sources to understand why SF is such an important tool for this kind of analysis.
FIRST-YEAR SEMINARS

9:30 - 10:45 AM

MGMT 1111-001 // Leadership in Business Life
Core Area: Behavioral Sciences // Professor: Sherrie Lawson
Learn about leadership in business and society as you experience it. Through individual and group activities, guest speakers and field trips, we will examine leadership theories, concepts and practices to better understand what makes leaders effective while gaining a better appreciation for our own leadership strengths and potentials.

HIST 1111-001 // Shiver Me Timbers - The History of Pirates
Core Area: Humanities // Professor: Chris Agee
Piracy is often thought of as occurring in fairy tales with swashbuckling heroes that look like Johnny Depp and who live in the past. However, piracy is far from the past and do not just apply to illegal films or stolen information on the computer. This class introduce pirates from the past and present, what caused them to be pirates, how and where they “pirated” and what they have or don’t have in common.

11:00 - 12:15 PM

WGST 1111-002 // Queer Histories, Queer Lives: Introduction to LGBTQ+ Studies
Core Area: Humanities // Professor: Katherine Mohrman
As an introduction to LGBTQ/queer studies, this class will give students the opportunity to engage in the histories, experiences, and perspectives of various queer peoples, communities, and ideas. We will focus on identity and politics in relation to gender and sexuality and other social categories such as race/ethnicity, socio-economic class, nationality, dis/ability, and religion. We will also explore together what it means to “be queer” and what it means to view history, culture, and politics from a queer perspective.

ENGL 1111-001 // Is the Book Always Better than the Movie? Adaptation in Literature: Text, Screen, Stage, and More
Core Area: Humanities // Professor: Jody Thomas
In this course, we will examine how authors and other artists tell versions of the same stories through different media. We will explore such questions as: What advantages do certain forms of storytelling have over others? Are certain stories particularly suited to one form or another? How close should adapters stick to the original story?

FINE 1111-001 // Your Photographic Journal
Core Area: Arts // Professor: Carol Golemboski
Improve your photographic skills while creating several dynamic, personal projects. Using a camera phone, learn basic camera functions, digital formats, visual journaling, as well as fundamental principles of light and composition. Investigate photography as a mode of visual communication while examining its creative possibilities and exploring the history of the medium.
11:00 - 12:15 PM

**ETST 3111-001 // Ethnicity and Race in Contemporary American Culture**

Core Area: Cultural Diversity // Professor: Kim Kennedy White

This course introduces students to creative works by people of color including African American, Native American, Latino, and Asian Americans. The class explores theoretical concepts about racial and ethnic identities and encourages students to think critically about the construction and representation of race, class, and gender in modern American life.

*This course is only open to incoming Fall 2022 transfer students.*

**PHIL 1111-001 // Why Follow the Laws**

Core Area: Humanities // Professor: Jeff Golub

We usually assume that what defines our society and our politics are the laws. But this assumption introduces two sets of questions. On the one hand, what makes a law right? What makes it binding on us? And at what point might law lose such binding force? Does our answer apply to different countries with different laws? Indeed, if their laws are right for them—but not for us—what does that tell us about the limits of law as a force that legitimately constrains or permits human actions? On the other hand, what about our assumptions that certain laws are clearly immoral? Consider the laws that sanction slavery, or those that prevent women from voting, or those that dictate the terms of torture? There is a way in which we cannot get along without laws -- but given that there are laws humans create which are clearly wrong, we need to figure out where the force of law comes from.

12:30 - 1:45 PM

**COMM 1111-003 // What’s Love Got to do With It? Interpersonal Communication and Relationships**

Core Area: Behavioral Sciences // Professor: Megan Hurson

This course is an interesting combination of learning the meaning and basis of theoretical concepts of interpersonal communication. You will then apply these concepts to actual relationships and observations to understand how they work in everyday encounters.

**WGST 1111-001 // Good Girls Gone Bad**

Core Area: Humanities // Professor: Jody Thomas

Women historically have been subject to male authority and required to uphold societal standards of “good” behavior. Subsequently, these women had little voice in the communities in which they live or in the world at large. Some attempted to break out of this “good” girl mold and use their voice in creative ways, but those who did were often judged by society as “bad.” This First-Year Seminar course will examine how women throughout history combated subjugation through their art, literature, music, and dance, in order to speak to the truth of their lived experience, challenge social inequalities, and make contributions in their respective fields.
PSYC 1111-001 // How to Think like a Psychologist
Core Area: Behavioral Sciences // Professor: Mitch Handelsman

We will explore how psychologists apply critical, empirical, and ethical thinking to a variety of issues. We will develop and apply thinking skills and will assess learning by participating in class discussions, graded exercises, writing papers, and collaboration with one another to address complex problems.

MUSC 1111-002 // The Beatles, Popular Music, and Society
Core Area: Arts // Professor: Storm Gloor

Explore the impact of the Beatles and their music on popular music, our culture, and society, both in their time and today. The academic content portion of the course is an introduction to the music of the Beatles and their influence on culture. The academic skills portion of the course is designed to assist students in making a successful transition from high school to college.
FRIDAY-ONLY SEMINARS

9:00 - 11:45 AM

ETST 1111-003 // Food Culture and Asian American and Pacific Islander Identity
Core Area: Social Sciences // Professor: Binh Phan

This course provides a better understanding of the historical, social, and cultural aspects of the AAPI community specifically through food culture. Students will be able to investigate the politics and address critically, AAPI foodways by examining social habits, rituals, private versus public venues, and the connections to the AAPI identity. The AAPI community have always been intimately connected to food practices and institutions in the American imagination.

This course is open to both incoming Fall 2022 first-year and transfer students.
LEARNING COMMUNITIES (LC)

Criminal Justice

Calling all Criminal Justice majors! This LC offers many opportunities to connect – to your classmates, professors, and professionals in the community. Through your CRJU course you will explore the world of criminology and criminal justice. You will also have the opportunity to connect with those classmates through UNIV, where together you will learn how to engage and succeed in college, through workshops pertaining to study skills, getting along with faculty, and connecting to campus resources.

Criminology and Criminal Justice: An Overview // CRJU 1000-002 // Core Area: Social Sciences // MW 9:30 - 10:45 PM
UNIV 1110-011* // W 11:00 - 12:15 PM
* (To enroll in UNIV 1110-012, you must also be enrolled in CRJU 1000-002)

College of Arts and Media Residential Creative Community (RCC)

City Heights will be home to the CAM Residential Creative Community (RCC), a special residential space for College of Arts & Media (CAM) students to live in a supportive environment of artists, filmmakers, musicians, and scholars. CAMRCC members will have distinct academic and co-curricular experiences to connect with the arts and creative industries. The CAMRCC communal spaces are designed and equipped to foster making, creativity, and collaboration amongst peers and classmates. Interested students can indicate their preference to live on the CAMRCC floor on the CU Denver Housing Application.

In order to be a part of the CAM Learning Community UNIV sections, you must be living on the CAM floor in the City Heights Residence Hall.

CAM RCC SECTION 1
UNIV 1110-007 // F 9:30 - 10:45 AM

CAM RCC SECTION 2
UNIV 1110-008 // F 9:30 - 10:45 PM

CAM RCC SECTION 3
UNIV 1110-009 // F 9:30 - 10:45 PM

Curious Teacher Learning Community

Curiosity, the heart of great teaching, is the focus of this learning community. See the world through the eyes of a learner and nurture a curiosity about children, adolescents, families and communities. This learning community is for EDHD majors.

Foundations of Culturally and Linguistically Diverse Education // CLDE 2000-H02 // M 2:00 - 4:45 PM
Mathematics for Elementary Teachers // MTED 3040-002 // W 2:00 - 4:45 PM

College Success // UNIV 1110-012 // W 12:30 - 1:45 PM // FIRST YEAR STUDENTS
College Success // UNIV 1110-013 // W 12:30 - 1:45 PM // TRANSFER STUDENTS

Engineering //

Join the Engineering Learning Community and explore the world of Engineering with like-minded students! You are eligible to enroll in the LC if you are one of the following majors: Bio-Engineering, Civil Engineering, Computer Science, Electrical Engineering, Mechanical Engineering, Pre- Engineering, and Math! You will benefit from a connected curriculum (three courses) that fosters collaboration and community, as well as smaller class sizes! Check out your courses below:

Precalculus Mathematics // MATH 1130-111 // MTWTh 10:00 - 10:50 AM

Calculus I // MATH 1401-111 // MTWTh 11:00 - 11:50 AM

Calculus II // MATH 2411-111 // TTh 2:00 - 3:50 AM

Interdisciplinary Freshman Design // ENGR 1200-111 // MW 12:30 - 1:45 PM

Core Composition I // ENGL 1020-111 // MW 2:00 - 3:15 PM

Core Composition II // ENGL 2030-111 // MW 3:30 - 4:45 PM
