CC: Primary and Secondary Citizenship Standard

Version 1.0

Author: Campus Community

Revision History

<i>Version</i>	<i>Date</i>	<i>Description</i>	<i>Edited by:</i>
1.0	10/26/2020	Primary and Secondary Citizenship Standard	Campus Community

Description:

Campus Solutions does not deliver a way to differentiate between primary and secondary citizenships. As a result, departments and systems which rely on Campus Solutions citizenship data (including Sunapsis, the enterprise solution for International Student and Scholar Services) do not have the ability to automate and build out business processes.

Standard:

- Use the comment field in Citizenship and Passport to identify the Primary and Secondary citizenship for a student record
 - Primary
 - Input a comment exactly as **Primary**
 - Secondary
 - Input a comment exactly as **Secondary**
 - If a student has more than one secondary citizenship, please continue to use 'Secondary' as the value for that citizenship

Example

The screenshot shows a web interface for entering citizenship and passport information. At the top, there are navigation links: "Find | View All", "First", "1 of 3", and "Last". Below this, there are two main sections:

- Citizenship/Passport**: This section has a search bar for "Country" with "USA" selected and "United States" displayed. To the right, there is a dropdown menu for "Citizenship Status" with "Citizen" selected.
- Passport Information**: This section has its own navigation: "Find | View All", "First", "1 of 1", and "Last". It contains several input fields:
 - *Passport Number: An empty text box.
 - Issue Date: A date picker with a calendar icon.
 - Expiration Date: A date picker with a calendar icon.
 - Country: A dropdown menu with "USA" selected and "United States" displayed.
 - State: A dropdown menu.
 - City: An empty text box.
 - Issuing Authority: An empty text box.
 - Comment: A text area containing the word "Primary".

Reason for Standard:

The standard is in place for consistency, to provide additional information for departments to use and to assist with the extraction of the data for other downstream systems.

- Export control may use the data to identify populations of interest
- Identify specific populations to send communications to based on proclamations made by the current Administration
- Report benefits for Institutional Research
- International Admissions
- International Student and Scholar Services (ISSS) can identify the associated country for a student's visa
