

## RECONSIDERATION OF INCOME APPEALS

The CU Anschutz Financial Aid & Scholarships Office recognizes your family’s financial circumstances may change and affect your ability to contribute to your education. The family for independent students includes you and your spouse, if married. The family for dependent students includes you and your parents. Our office can help address this issue and assist families who have experienced a significant change in income and/or resources.

Your financial aid offer is based on the income and asset information you provided on the *Free Application for Federal Student Aid* (FAFSA). If your family’s income is substantially less than what you reported on the FAFSA, or the income is substantially reduced by expenses due to certain extenuating circumstances, you may consider requesting a Reconsideration of Income Appeal. We will review your appeal and adjust your FAFSA, as appropriate, based on the family’s current financial situation.
