Biography

Mary Fisher, MPH, is a project manager for the CCTSI Community Engagement and Research Core. Her focus is primarily with supporting the Community Research Liaisons and other programs as needed within the team. Mary also works as the network project manager for the SNOCAP Practice-Based Research Networks based out of the Department of Family Medicine. Mary received her Master of Public Health degree with a concentration in Community and Behavioral Health from the Colorado School of Public Health. Before living in the great state of Colorado, Mary served as an AmeriCorps member in Iowa with the Des Moines Public School District working as an elementary school nutrition educator. Mary's undergraduate degree is in Dietetics and Child, Adult, and Family Services from Iowa State University.
