Updates

- Provost IRC Taskforce
Joann Brennan is Assoc VC for FA—working with Provost to chair IRC Taskforce
- Big issues:
 - Pay/benefits
 - Promotion/Annual Review
 - Sabbaticals
 - Workload—doing more than contracted to do
 - Support from different levels
- Concern brought up that CU-Denver and AMC models are very different; need more collaboration—consolidation of 2 campuses hasn't helped that
- A. Meyers willing to give more info from AMC

We will have a **Dec 17th UCDALI meeting** to look over taskforce progress report

Grant programs—before, CLAS and Provost funding for Non-CLAS grants

Provost office has agreed to take on WHOLE IRC grant program funding
10-20% CTT Research limit

S. Walker notes we'll do CLAS and non-CLAS both in Spring (call out)

--Deadline for submissions end of March

--looking at pooled sample or keeping CLAS/non-CLAS separate

--need well balanced committee

--Provost's office committing \$13K?—double checking

--ask past recipients to be reviewers to be sure to have CLAS and non-CLAS

reviewers

Elections: find out who is up! President, VP and IO elected in April 2020

12:45pm: Karen Sobel, CFDA

- Thorsten Spehn is UCDALI liaison with CFDA
- A lot of IRC faculty are coming in to look through dossier library
- IRC as consultants?
- Jan 3rd submission deadline for statistical analysis consultant with graduate student
 - Prioritizing IRC faculty applications (math, stats, econ, etc)

- Statistical support for IRC faculty member—not PD or money
- Application available online:
<https://www.ucdenver.edu/centers/cfda/Programs/math-statistics-department-partnership>
- Sample applications would be helpful
