**A. POLICY STATEMENT**

The university community will respond to the notification of the death of a student in accordance with standardized procedures coordinated by designated officials. Those procedures, determined by the circumstances, will include communication and actions related to student records, accounts, personal property, academics, family member contacts, and related matters. This policy sets forth procedural guidelines intended to assist those responding to the death of a student.

**B. PROCEDURES**

Notification of a student’s death will be conveyed as soon as possible to the Office of the Registrar by university faculty, staff, or students who become aware a student has passed

away. If someone becomes aware of a student death over the weekend or when the university is closed, at CU Anschutz, notification should be made to the University Police Department (303-724-4444). The University Police Department will then contact the Anschutz Associate Vice Chancellor for Student Affairs. At CU Denver, notification should be made to the Dean of Students (303-315-7310).

The Office of the Registrar will verify student enrollment and verification of student's death via official documentation. Then, the Office of the Registrar, together with the CU Anschutz Associate Vice Chancellor for Student Affairs (or designee) or the CU Denver Dean of Students (or designee), appoint a liaison to facilitate a coordinated campus response. The Registrar's Office will make the appropriate updates to the student information system and notify other student administrative units (i.e. financial aid, bursar's, NSC, IT production coordinator, etc.) that the student's record has been closed. This will include the other CU Registrars if the student has records at the other CU Campuses. The Anschutz Associate Vice Chancellor for Student Affairs (or designee) for a student at CU Anschutz or the CU Denver Dean of Students (or designee) for a student at CU Denver will distribute to specified university personnel and offices a version of the attached sample memorandum ("Notification of Student Death") modified to fit the circumstances. This notification will include communication and action related to personal property, academics, family member contacts, eligibility for posthumous academic degree, and related matters. The liaison then will take the lead in communicating with those campus units to ensure completion of all procedures necessary to include formal communication with and returning property to the student's family. Schools and colleges or departments and others close to the student may choose to send condolences to the family of the student in addition to the formal communication.
