

After receiving a very competitive set of applications for the 2018 Certificate Training Program (CTP) Cohort, we are thrilled to announce the teams for CTP Cohort 6! This new cohort represents yet another outstanding group of clinical, operational, and administrative leaders from both Children's Hospital Colorado and University of Colorado Hospital. We are excited to expand the IHQSE CTP community and to work with these teams in carrying on the great work of creating innovative solutions for our care delivery system and high-value services for our patients.

Congratulations to IHQSE's 2018 CTP Cohort 6!

<i>Children's Hospital Colorado</i>
