PROGRAM OVERVIEW

The only program of its kind in the Rocky Mountain region, CU Denver offers an accredited music bachelor’s degree that complements extensive music business education with course work in music performance, musicianship, and audio engineering. The business curriculum covers many facets of the industry, including music marketing, artist management, new business models, legal issues, and the concert business, among other subjects. Focusing on the industry’s present growth and emerging trends, CU Denver’s Music Business program is designed for students interested in utilizing their creative and entrepreneurial talents.

Unlike many other Music Business programs, we are housed within an accredited music department and require all students to gain at least a fundamental understanding of performance and musicianship. Such an understanding provides a performer’s perspective and builds credibility for the aspiring business professional. We cater to the individual, encouraging exploration of our course work and the industry. Unlike programs that churn out students with a single skill set, trained for one particular type of profession, our program supports entrepreneurship – on both academic and professional levels.
