

Let's Talk: Conversations about Women's Health

Exploring Health Care Careers for High School-Aged Girls

The Center for Women's Health Research is pleased to present the 5th Annual Girls' Career Day. High school girls won't want to miss this unique opportunity to learn about a variety of careers in health care. Girls will be introduced to careers in women's health, surgery, health care communications, endocrinology, research, psychiatry, and dental medicine.

Date: Tuesday, June 4, 2019

Time: 8:00 am–4:15 pm

Where: Drop off and pickup
Anschutz Health and Wellness Center
12348 East Montview Blvd.
Aurora, CO 80045
303-724-0305

Cost: Free

Parking: Park in the Monte Vista or Snowmass lots next to the Anschutz Health and Wellness Center. Parking information will be emailed to you closer to the date.

RSVP: To register, please visit www.cwhr.org or contact Nan Oudet at nancy.oudet@ucdenver.edu or call 303-724-9179.

Let's Talk: Conversations about Women's Health is an educational series that focuses on women's health and sex differences. The Center for Women's Health Research would like to thank **The List Family Foundation** for their support of this event.

Exploring Health Care Careers for High School-Aged Girls

JUNE 4, 2019

8:00-8:45AM	Parent - Daughter breakfast and registration	Anschutz Health and Wellness Center, 3rd Floor
	Welcome Remarks	
	Judy Regensteiner, PhD , Director and Co-founder, Center for Women's Health Research	
	Talk with representatives from the CU School of Medicine, the CU School of Pharmacy, the CU College of Nursing, the CU Physical Therapy Program, the CU School of Dental Medicine, and the CU Physicians' Assistant Program	
9:00-10:30AM	Center for Surgical Innovation	Bioscience 1 Building
	Observe and practice surgical procedures with residents and learn about state of the art surgical technology in one of the region's most high-tech training facilities.	
	Careers in Health Care Communications	Bioscience 1 Building
	Careers in health care extend beyond direct patient care and research. If you enjoy writing and communicating, you will be interested in hearing about how communicators share important and inspiring stories with the media and the public.	
10:45-11:30AM	Endocrinology and Type 2 Diabetes/Tour of Reusch lab	Research Complex 1 South
	More than 100 million people in the U.S. have diabetes or prediabetes. Do you know why type 2 diabetes is increasing at such an alarming rate? Get an inside look into the lab of renowned endocrinologist and former President of the American Diabetes Association, Jane Reusch, MD. You will learn about ways to prevent diabetes and what is being done to discover new medications and therapies to treat diabetes.	
12:00-12:30PM	Lunch and Learn	Krugman Conference Room
	Neill Epperson, MD	
	Are you interested in a career in behavioral health? Hear about the fascinating career path of the CU School of Medicine's Chair of the Department of Psychiatry. Dr. Epperson is an expert in women's behavioral health, and her research has focused on the relationship between hormones and the brain.	
1:00-4:00PM	Careers in Dental Medicine	School of Dental Medicine
	At the CU Anschutz School of Dental Medicine, you will be introduced to the field of dentistry and gain knowledge about the importance of oral healthcare and how it affects your overall health. You will also have the opportunity to practice several skills you have learned through hands-on activities, including an exercise using virtual reality.	
4:15-4:30PM	Pick-up	Anschutz Health and Wellness Center, 1st Floor Lobby
