Cancer Center Symposium Series – Tuesdays at noon from September – May. Join us to hear guest speakers and CC faculty members speak about topics ranging from basic science to novel treatments in cancer. Interested in giving a talk? Contact Jill.Penafiel@cuanschutz.edu

Mentored Member Workshops – Offered quarterly.

Intramural Funding Opportunities: The Cancer Center is the beneficiary of several philanthropic efforts to raise funds for cancer research. RFAs are issued in Spring and awards made by early Fall. Current programs are:

Golfers Against Cancer - \$50K awards to support all areas of cancer research

Wings of Hope for Pancreatic Cancer - \$50K awards to support research in all areas of pancreatic cancer

Saffer Seed Grant Fund - \$25-50K awards to support new avenues of research with a particular interest in promoting research in young women's breast cancer and/or the impact of exercise on cancer prevention and outcomes.

Joint Multi-PI Pilot Project Program between the Department of Molecular, Cellular & Developmental Biology at CU Boulder and UCCC members at CU-AMC - \$100K awards to fund collaborative projects involving members from both campuses and with the intent to stimulate multi-PI R01s in areas of cancer-relevance.
