

ACCORDS Health Equity Seminar Series

For health services researchers and others designing and testing interventions to promote equity in health care.

Monday, September 16, 2019

12:00-1:00pm

Education 2 North room 2302

Zoom information below

Learning Objectives

- Understand various concepts of difference (e.g. disparity, inequity, inequality).
- Articulate why it is necessary to move beyond describing disparities.
- Address drivers and how to develop solutions.
- Recognize the Kilbourne Model and the need for multi-level, multi-component interventions

Presents

Reducing Disparities and Advancing Equity: Where Has the Research Been and Where It Needs To Go

The presentation will address concepts of difference (inequality, inequity, disparity) and focus on research frameworks and methods to advance equity and reduce disparities. The discussion will highlight the challenges of measuring equity, the drivers of disparities, and the development of interventions in real world settings

Romana Hasnain-Wynia, PhD
Chief Research Officer, Denver Health

Romana Hasnain-Wynia is the Chief Research Officer at Denver Health where she oversees Denver Health's research and sponsored programs through the Office of Research and represents research interests as a member of the Executive Leadership Team. Prior to Denver Health, she served as the director of the Addressing Disparities program at the Patient Centered Outcomes Research Institute where she was responsible for providing strategic oversight and leadership for the program's funding priorities.

*Lunch will be provided for the first 30 participants.

**No Registration required
