

Wednesday
April 24, 2019

12:00-1:00

Education 2 North
Room 2307

Anschutz Medical Campus

ACCORDS

UNIVERSITY OF COLORADO
CHILDREN'S HOSPITAL COLORADO

presents

Behavioral Science in Health and Health Care

An ACCORDS Seminar Series

**** Distinguished Lecturer****

“Interdisciplinary Approaches to Physical Activity: Built Environment Research and Translation to Policy”

Participants will be able to:

1. List three levels of influence on health behaviors commonly included in ecological models
2. Describe three attributes of activity-supportive communities shown to be associated with more physical activity among residents
3. List three pathways by which research can be translated into practice and policy action

For live remote access:

Or Telephone: 1.646.876.9923 Meeting
ID: 862 412 973

James Sallis, PhD

Distinguished Professor Emeritus,
UC San Diego, Department of Family Medicine and Public Health
Professorial Fellow, Australian Catholic University, Melbourne

Dr. Sallis trained as a psychologist and devoted his career to using behavioral science to improve the health of populations, mainly by increasing physical activity. He has co-authored more than 700 scientific publications, is a member of the National Academy of Medicine, and is using several approaches to accelerate the application of public health research to practice and policy.

Lunch will be provided to the first 40 participants.
No registration required.
