A. INTRODUCTION

The University of Colorado Denver | Anschutz Medical Campus (“the university”) is committed to providing an environment where issues can be openly discussed and explored. The freedom to exchange views is essential to the mission of the university. The purpose of this policy is to incorporate the protections for student expression provided by Colorado law, provide a community environment in which open discussion can occur without disrupting the academic mission or daily university functions, and to describe how the university will lawfully implement constitutional time, place, and manner limitations to promote speech and avoid interfering on the rights of others. This policy is applicable to CU Denver, and CU Anschutz. This policy does not extend to affiliate sites, including, but not limited to, University of Colorado Hospital, Children’s Hospital Colorado, or the Auraria Higher Education Campus (AHEC).

B. POLICY STATEMENT

The university, in its role as an academic institution, is committed to an environment in which a variety of ideas can be reasonably proposed and critically examined The

university respects the freedoms of speech and assembly as recognized by the United States Constitution, the Colorado Constitution, the laws enacted by Colorado's General Assembly, and the Laws of the Regents. As such, the university protects the free expression of ideas.

The university recognizes that expression takes many forms, including peaceful assembly, protests, speaking verbally, holding signs, circulating petitions, and distributing written materials. This policy is intended to promote lawful, non-commercial expression across the university. The university does not designate any area on campus as a free speech zone and does not restrict student expressive activities to particular areas of campus.

Consistent with Colorado law, the university recognizes that the generally accessible, open, outdoors areas of campus are Student Forums. Nonacademic and publicly open portion of facilities that the campus has traditionally made available to students for expressive purposes are also Student Forums. The university may enact lawful, content neutral time, place, and manner restrictions to ensure that Student Forums are used appropriately and without disrupting the academic mission, business operations, patient care activities, or regular functions of the university. The university prohibits unlawful activity that endangers the safety of the campus community or injures university property or facilities.

Due to the university's need to ensure and maintain its academic mission, Expressive Activities are not appropriate within academic or other university buildings. In addition, to avoid disruption the academic mission, business operations, patient care activities, or regular functions of the university, the university has identified the following locations as most appropriate for Expressive Activities:

CU Anschutz

- The Parade Grounds located on the Anschutz Medical Campus at East 17th Place and Racine Street
- The amphitheater located on the Anschutz Medical Campus between the Research 1 and Research 2 Buildings.
- Education Quad located between Education Building 1 and Education Building 2 North.

CU Denver

The preferred locations for Expressive Activities on CU Denver is the flagpole area located on the Auraria Campus. Expressive activities occurring on the sidewalks adjacent to the Lawrence Street Center, the Business School, and the CU (Dravo) Building on the CU Denver campus are under the jurisdiction of the City of Denver. Expressive Activities occurring on the Auraria Higher Education Campus (AHEC) are subject to AHEC policies.

Expressive Activities are not restricted to the above listed locations. However, the

university encourages Expressive Activities to take place at these locations in order to minimize disruption to the campus community, business operations and patient care activities, and to ensure appropriate arrangements for the Expressive Activity can be put into place.

Priority to use these locations will be as follows:
